

## ACKNOWLEDGEMENTS

I take this opportunity of expressing my heartfelt gratitude to my supervisor, Dr. Prof. M.R. Chaudhuri, for encouraging me to complete this treatise. His fountain of inspiration has not only inspired me to undertake this study, his valued help, useful suggestions and noble guidance has led me step by step to the completion of my work also. He introduced me to so many scholars and eminent persons who also has helped me a lot. He permitted me to consult his vast library which saved my time and labour. My regular participations in the monthly and annual seminars organised by "Industrial Situation in India" - a quarterly journal edited by Dr. Chaudhuri, gave me the scope to improve immensely my knowledge of presentation and writing.

I acknowledge with gratitude to the authors, and publishers of those publications which I freely consulted in the course of my preparation of this treatise. I express most sincerely my heartfelt thanks to the various authorities like the Directorate of Small Scale Industries, the Bureau of Applied Economics and Statistics, District Industrial Centre, Nadia, the United Bank of India.

I also consider it my pleasant duty to acknowledge the spontaneous encouragement and inspiration I have received all through my work, from my parents, my in-laws, my friends, my husband and my little son Sunny.

Japanya Das.
