4.9 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Anopheles culicifacies* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.10 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Anopheles subpictus* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.11 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Anopheles vagus* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.12 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Armigeres obturbans* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.13 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Culex quinquefasciatus* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.14 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Culex tritaeniorhynchus* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.15 Month wise outskirt larval density (LD) per litre of sample water of mosquito *Culex univittatus* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.16 Month wise outskirt larval density (LD) per litre of sample water
of mosquito *Culex vishnui* of villages surveyed around Rajkot city during 2006-07 (n=24/village/month).

4.17 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Aedes aegypti* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).

4.18 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Aedes vittatus* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).

4.19 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Anopheles stephensi* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).

4.20 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Anopheles annularis* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).

4.21 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Anopheles culicifices* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).

4.22 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Anopheles subpictus* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).

4.23 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Anopheles vagus* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).
4.24 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Armigeres obturbans* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).  

4.25 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Culex quinquefasciatus* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).  

4.26 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Culex tritaeniorhynchus* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).  

4.27 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Culex univittatus* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).  

4.28 Month wise larval density (LD) per litre of sample water stored in tanks for domestic use of mosquito *Culex vishnui* of villages surveyed around Rajkot city during 2006-07 (n=40/village/month).  

4.29 Month wise adult MHD (Man hour density) of *Aedes aegypti* of villages surveyed around Rajkot city during 2006-07 (n=9/village/month).  

4.30 Month wise adult MHD (Man hour density) of *Aedes vittatus* of villages surveyed around Rajkot city during 2006-07 (n=9/village/month).  

4.31 Month wise adult MHD (Man hour density) of *Anopheles stephensi* of villages surveyed around Rajkot city during 2006-07 (n=9/village/month).  

4.32 Month wise adult MHD (Man hour density) of *Anopheles annularis* of villages surveyed around Rajkot city during 2006-07 (n=9/village/month).
4.33 Month wise adult MHD (Man hour density) of Anopheles culicifices of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.34 Month wise adult MHD (Man hour density) of Anopheles subpictus of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.35 Month wise adult MHD (Man hour density) of Anopheles vagus of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.36 Month wise adult MHD (Man hour density) of Armigeres obturbans of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.37 Month wise adult MHD (Man hour density) of Culex quinquefasciatus of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.38 Month wise adult MHD (Man hour density) of Culex tritaeniorhynchus of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.39 Month wise adult MHD (Man hour density) of Culex univittatus of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

4.40 Month wise adult MHD (Man hour density) of Culex vishnui of villages surveyed around Rajkot city during 2006-07(n=9/village/month).

5.1 Details of villages surveyed around Rajkot city.

5.2 Basic demographic features.

5.3 Awareness on malaria spread, symptoms and treatment.

5.4 Knowledge of vector characteristics and preventive measures.

5.5 Common preventive practices against malaria.

5.6 Sources of information on various aspects of malaria fever.
