LIST OF FIGURES

FIGURE NO. | ITEMS
--- | ---
1. | Variations of average minimum temperature in different months of the years 1996 and 1997.
2. | Variations of maximum temperature in different months of the years 1996 and 1997.
3. | Variations of total rainfall in different months of the years 1996 and 1997.
4. | Variations of number of rainy days in different months of the years 1996 and 1997.
5. | Variations of average relative humidity at 0830 hours in different months of the years 1996 and 1997.
6. | Variations of average relative humidity at 1730 hours in different months of the years 1996 and 1997.
7. | Number of algal forms in each Circle.
8. | Total number of isolates of each genus.
9. | Incidence of each BGA genus in Circles.
10. | Total number of BGA species in each genus.
11. | Incidence of total number of BGA species against total number of soil samples in each Circle.
12. | Frequency distribution of BGA species of each genus in different Circles.
13. | Frequency distribution of BGA species on the basis of total number of soil samples (214) collected from rice fields, Nagaon Sub-division.
14. | Frequency distribution of BGA species on the basis of total number of species collected (65) in Nagaon Sub-division.
15. Maximum and minimum nitrogen content of BGA genera and mean amount over the genera and within the genus.

16. Maximum and minimum nitrogen content of BGA genera and mean amount over the genera and within the genus.

17. Per cent increase in grain yield over control in different treatments of BGA species under sterilized soil condition.

18. Mean performance of rice variety Gopinath in different treatments of BGA in respects of grain yield, per plant under unsterilized soil conditions.

19. Per cent increase in grain yield over control in different treatments of BGA under unsterilized soil conditions.

20. Mean performance of rice variety Gopinath in different treatments of BGA in respects of grain yield per plant under sterilized soil conditions.
