Acknowledgement

It's a pride privilege for the author to express his deepest sense of gratitude and indebtedness to Dr. P.J. Handique Reader deptt. of Biotechnology, Gauhati University for accepting him as his student. He is also thankful to Dr. Handique for his untiring encouragement and guidance during the whole tenure of investigation and preparation of this manuscript.

The author is also thankful to earstwhile Director, Dr. M. P. Chacharkar of Defence Research Laboratory Tezpur for his regular enthusiastic encouragement to enroll his name for this research study and for the help extended in irradiation work at Raksha Anusandhan and Vikash Irradiator (RAVI).

It is felt deeply to express sincere gratitude to Dr. S.N. Dube, Director DRL Tezpur for sparing him from normal duty allowing him to use the laboratory whenever it was required and above all his valuable suggestions.

He will be ever grateful to DRDO for allowing him to undertake this Ph.D programme. He is also thankful to Shri Sailesh Kohle, Scientist, DL, Jodhpur in execution of irradiation work.

Author also expresses his sincere thanks to Dr. Rupali Gogoi (sister) of Tinsukia college, Dr. Probin Gogoi, Reader Dibrugarh University (brother in law) for their encouragement and inspiration from time to time.

Vocabulary fails him to express adequately his deepest and sincere gratitude to Mrs. Shally Sultana Choudhury M.Sc and Mrs. Hemashree Deka, SRF at DRL, for their untiring help in collection of literature and preparation of manuscript.
Thanks are also due to Miss Barnali Bailung, Shri Pranab Jyoti Gogoi, and Sahitya Academy award winner Sri K.K. Rai for whom this manuscript is transformed into printed form in time.

The author also expresses his warm thanks to workers of Library, Gauhati University & Assam Agriculture University for their help and cooperation.

Last but not the least the author expresses his heartfelt thanks to his mother Jayanti Gogoi, wife Papori Gogoi, sons Jantoo and Chintoo for their constant inspiration and moral support from outside the research work. Without this it would not have been possible to complete this manuscript.
