Acknowledgment

I take this opportunity to express my deep sense of gratitude to Dr M M Goswami, Professor, Department of Zoology, Gauhati University, Guwahati and Dr Devashish Kar, Head, Department of Life Science, Assam University, Silchar under whose supervision and guidance this PhD project has been carried out. I am indebted to them for their valuable advice and constant encouragement during the period of the work.

I consider it my pleasant duty to express my indebtedness to Professor P C Bhattacharjee, Professor U C Goswami and Professor A Dutta of Department of Zoology, Gauhati University for giving me the opportunity to carry on the research in the Department in their capacity as the Head of the Departments.

I am indebted to Professor S C Dey, Department of Zoology, Gauhati University for his suggestions at the time of taking up the project.

My heartfelt thanks are due to Librarians of K K Handique Library, Gauhati University, Benaras Hindu University, Varanasi and Central Institute of Fisheries Education, Mumbai for providing sufficient library facilities during the work.

The author gratefully acknowledges the University Grants Commission for extending financial assistance in the form of minor research project.

I am also thankful to the authorities of Air Force Station, Kumbhirgram for providing the meteorological data.
My sincere gratefulness are due to Sri S Dutta, Retd. Principal, G C College, Dr J C Mazumdar, Principal, G C College and Mrs K Dey, Head, Department of Zoology, G C College for their constant advice and inspiration towards completion of this work. I wish to thank Dr N C Malakar, Department of Botany, G C College for helping me in identification of the aquatic macrophytes.

I also wish to thank Sri A Nath of Department of Botany, G C College and Sri M Singha of Baskandi for their help and cooperation during the field study. My heartfelt thanks are due to Sri P Nath Purkayastha for providing necessary computer facility in composing the final manuscript.
