ACKNOWLEDGEMENT

I express deep sense of gratitude to my supervising guide Dr. Elyas K K, Professor, Department of Biotechnology, University of Calicut. His logical insight and in-depth knowledge in science are highly appreciable. I am also grateful to him for the freedom of experimentation that he had provided throughout my research days.

It is difficult to overstate my gratitude to Prof (Dr) M Chandrasekaran, a motivated and amazing teacher with unsurpassed knowledge, for his devotion to his students’ success in life. He has been a constant source of support that has proven to be truly invaluable in my life. Although he is often very busy with official and scientific duty, his door was always open to students for discussion and advice. I fall short of words to express my gratitude for his inspiration, support and encouragement without which it would not have been possible to shape this thesis. Thank you sir for pointing me in the right direction and for continuing to encourage me throughout.

I have had the great pleasure of working on the project with Dr. Sarita G Bhat, co-guide. I gratefully acknowledge my sincere gratitude to her who has been very gracious and generous with her time and ideas. Without her encouragement and constant guidance I could not have finished this thesis.

I am grateful to Dr. C. S Paulose, inspiring teacher for the support and encouragement. His unrelenting enthusiasm and positive approach will forever remain as source of inspiration.

I am thankful to Dr. Padma Nambisan, for valuable suggestions and support which have been very helpful for this study throughout the research period.

I owe heartfelt gratitude to all my graduate teachers of Nirmalagiri college, Kuthuparamba, especially Dr. Joselet Mathew. With his enthusiasm and inspiration he helped me to develop a focused vision in science.

I am indebted to all my teachers of Mattanur High School and Mettadi L P School, for enthusing me to rise above myself. I am also thankful to many student colleagues for providing a stimulating environment.

My friends are my asset and I wish to owe my thanks to Shamena, Neetha, Anita, Mehru, Sreepriya and Deepa. Support and co-operation from them is greatly acknowledged.
I thankfully remember the affection, help and support from Radhika, Sheeja, Latha, Biju and Nadiya. Support from Ajitha, Jasmin Shibu, Tess and Reeni is also acknowledged.

I express deep sense of gratitude to Smitha Sajith and family and Anuradha for their sisterly concern and support, which also helped me to create a homely atmosphere in the hostel.

It had been awesome to have Deepa, my friend with me who passed away after the start of my PhD study. She was a wonderful human being who is much beloved and deeply missed by all that knew her, especially me. It is extremely hard to convey my gratitude to her in words. The great companionship, experiences and thoughts we shared are more valuable. I am deeply indebted to her. Dee..my tears can’t do any magic but I can see your cheerful face through that.

Most people are lucky to have one friend as constant and close to their heart as Preeja is to mine. I have had the great fortune of having such a friend. Words fail to express my sincere gratitude to her for the motivation, companionship and support by all means. I gratefully acknowledge the love and support from Prasheena.

Special thanks to Dr. Madhu K M, and Manoj Narayanan who were always there to help me with valuable suggestions and support.

The ITL sorority will always be remembered. Words fail to express my heart felt gratitude to Rekha, for being with me all the time in lab and for the support by all means and Abraham for great companionship and support. I am indebted to both of them for the camaraderie, entertainment, and sisterly affection they provided. The encouragement from Ramesh sir is greatly acknowledged.

I am indebted to my MGL colleagues Jeena, Raghul, Helvin, Smitha, Linda, Satheesh, Harisree, Mridula, Lakshmi, Noble and FIPs, Vijaya miss and Siju for providing me a comfortable and co-operative working environment. The support, timely help and encouragement from each and every one of them is greatly acknowledged. (Special mention for the guidance for using EndNote by Siju). I will always cherish the memory of lunch time fun and comedy stories which really helped me to relax.

I warmly thank my friends at MTL, for their help and support. Special regards to Mrs. Roselin, Cikesh, Manjula miss, Bindiya, Karthikeyan, Mr. Sajan and Mr. Doles.
I take this opportunity to extend my gratitude to all my friends of Neurobiology lab especially Anju, Anita, Chindu, Smijin, Korah, Jayanarayanan and Naijil.

I express my gratitude to all my friends of Plant Biotechnology lab Soumya, Jasmine, Anita, Reji chechi, Habeeba, Jikku and Sudha.

I am thankful to the office staff Mrs. Shahnas Beegum, Mr. Sudhi, Mrs. Fathima, Mr. Roshan, Mr. Ravi, Mr. Rasheed and Mrs. Sumathi. My deep sense of gratitude to former office staff Shanthakumari Chechi, Usha Chechi, Ajitha Chechi, Ratna Bai Chechi, Ismailkka and Libi Chechi is acknowledged. I also thank CUSAT office staff; Mr. Nicolas, Mr. Ansar, Mr. Pramod, Mrs. Suja for their timely help and support.

I am grateful to my neighbours Mr. Sarasan and Mrs. Mani for their support. Special regards to their daughter Achu, for the timely help and caring. Support from Suku chettan and family (special mention to Swathi for the support and timely help), Sebastian chettan and family, Ramesh uncle and family of Aluva, Raju chettan and family of Kombara, Manojettan and family, their parents Uncle and Aunty of Kalamassery are greatly acknowledged. The help and support by Shobha chechi is appreciated.

I am deeply indebted to Babu ammavan for his timely help and father-like care to my family. His helping paw was there through all our ups and downs. I am truly appreciative of all that he has done for me over the years. Special mention to Pixel Studio for the thesis cover design. Regards to Ammu and Shobhammayi.

Regards to my uncles and cousins. Special memory and regards to my uncle, K Sankar. I wish to express deepest thanks to all people in my entire family and who have supported me since I was born.

I express my gratitude to appan Ramakrishnan Namboodiri, Mettadi and family for the support. Special mention to Sree, Sasi and Saji.

I am indebted to Nawshadkka and Rasheeda, Imthias and Rehana, Mehbu and Shanooba, Elappa and Zuhra for their love and encouragement. Regards to Hairuthatha & family, and Salmathatha & family for their support.

I could not have reached my goals without the help and support of my husband Mr. Manzur at all times. He has been my pillar of strength through all my ups and downs. He always takes my problems as his own, help me to overcome them, and encourage me. I feel blessed to be a part of his life. Thank you so much for the faithful love and endless help.
Affection to my daughter Athena (Pippy), for inspiring me with her love and
caring even as she bore the brunt of my moods and for concerned, late night
vigils. Regards to my younger daughter Nunnu who was there in my womb during
the final stages of my PhD.

My brother Kuttan and sister Liji have given me their unequivocal support
throughout, as always, for which my mere expression of thanks likewise does not
suffice. I cannot thank enough for the constant encouragement they provide and
for always being there for me. I am so fortunate to have them, who are
supportive and motivating in equal measures. I would have been lost without
them. Support from brother in law Mr. Jyothiraj is greatly acknowledged. Regards
to Adwaith.

I owe deepest thanks to my father in law and mother in law for the constant
affection and caring that has proven to be truly invaluable in my life.

I am deeply obliged to my grand parents, especially my Achamma, who looked
after us with extreme care and affection.

It is hard to express in word the pain and effort taken by my Achan, Mr. K.K
Namboodiri and Amma Mrs. K I Radha for making me the person I have become.
They instilled added value to my thinking which helped me to develop clear
perspective of life and the will to strive. I cannot thank enough for the
opportunities they have given me. Their endless love and support are greatly
admired without which it would not have been possible to embark upon this
journey of life.

Financial assistance from the Department of Biotechnology (DBT), Govt. of India
in the form of Junior and Senior research fellowship is greatly acknowledged. The
research fellowship awarded by Cochin University of Science and Technology is
also duly acknowledged.
