ACKNOWLEDGEMENT

At the very outset, I would like to extend my grateful thanks to those Physicians of the District Health Offices of the State and many others at the two Medical Colleges who assisted me in various ways in my field-work for this investigation.

I consider it my solemn duty to express my deep gratitudes to Dr. H.P. Das, Rector and formerly Professor and Head of the Department of Geography, Gauhati University for his guidance, encouragement, and valuable suggestions during all phases of my work. But for his sustained encouragement and persuasion, completion of this thesis would not have been possible. I am equally indebted to Dr. M. Taher, Secretary, Text Book Production and Co-ordination Committee, Gauhati University for his thorough reading of the manuscript with valuable suggestions, necessary modifications and encouragement. I would be failing in my duties if I do not express my thanks to Dr. M.M. Das, Lecturer in the Department and Dr. H.N. Sharma, Reader in the Department, who offered valuable suggestions and help at times of my personal approach. Thanks are also due to Dr. M. Borthakur, Head and Reader of the Department of
Geography, Gauhati University.

My special gratitudes are due to Mr. U.N. Roychoudhury, Cartographer of the Department who took enough pains to draw the maps and diagrams. Mr. Kalicharan Das, who with great patience and endurance excellently typed out the final copy of the thesis within limited time, deserves my grateful thanks.

Grateful acknowledgements are also due to the University Grants Commission for providing me financial assistance in the form of a Junior Research Fellowship.

My thanks are due to all those inside and outside the academic community who offered helps and inspirations in various ways during the period of survey, compilation and writing the thesis.

Last but not the least I offer thanks to my husband and child who were a constant source of encouragement and inspiration.

Department of Geography, Gauhati University. (Mahfuza Rahman) U.G.C. Research Scholar.
