ACKNOWLEDGMENT

With deep sense of humility I vow to express my gratitude to many well-wishers who have helped me directly or indirectly in pursuing this Ph.D. work of mine.

I offer most sincere gratitude to Dr. Dipak Kumar Dutta of RRL Jorhat and Dr. Krishna Gopal Bhattacharyya of Gauhati University for agreeing to guide me in this work.

I am also grateful to Director, RRL, Jorhat and Head, Material Science Division for giving me the permission to carry out the work.

I thank all the members of Material Science Division RRL, Jorhat for giving me many useful helps when it was highly sought for. I must acknowledge fully the helps offered to me by fellow colleagues Dr. R. K. Barooah, Dr. S. Mahiuddin, Dr. A. Garg, Mr. P. Sengupta, Mr. J. N. Borgohain and Mr. C. S. Bordoloi during the course of the work.

I also offer my gratitude to German Academic Exchange Service (DAAD) for offering me a fellowship for a short period at the beginning stage of this work to carry out few experiments in Germany. I offer my thanks to Prof. Herbert Poellmann and late Prof. Hans J. Kuzel of University of Erlangen - Nuremberg, Germany for providing me the opportunities to learn the field in details during the tenure of DAAD fellowship.

My thanks are also due to Dr. Andre Ayral of ENSCM-CNRS Montpellier, FRANCE for helping me in a few important experiments.

I offer my sincere gratitude to German Technical Cooperation (GTZ) for offering me some gift in the form of instrument grant.

My mother also deserves very special mention as she stood solid and cool in some most uneven times.

Thanks are also due to my wife and my sister for their assistance and understanding.

Lastly, I take the opportunity to salute my late father but for whose teachings in formative periods of my life I could not have dared to paddle the canoe in this endeavour.

(Rajib Lochan Goswamee)
