ACKNOWLEDGEMENTS

Without her unstinted loving guidance at every turn of the project this thesis would not have come about - to her, Prof. Nilima Dutta, Reader in Philosophy Department, Gauhati University I express my thanks simply but sincerely. Naturally in such a project many people become involved; each one contributed wholeheartedly in their own little ways:

Kaushik Kalita — in programming
Phullaranjan Barua — in graphs
Arun Kumar — in typing

To my friend Ranu who motivated me to start this project my grateful thanks remain.

Mr. N. P. Dutta helped me to translate the Questionnaires to Assamese.

MESSERS DECISION Computer and Consultancy provided the computers free for all my computer-related work.

Dr. Jai B. P. Sinha, Ph. D, Professor of Social Psychology, A. N. S. Institute of Social Studies, Patna, provided facilities at their library for the literature survey.

And, finally to my brother Ankush Shuyan who never thought I could do a research project - my thanks for egging me on.
