ACKNOWLEDGEMENT

The present investigation "An ecological study of *Porphyrio porphyrio*, Linnaeus with reference to crop depredation in Brahmaputra valley, Assam" was carried out under the unstinted guidance, invaluable suggestions, critical comments and constant encouragement of the guidance of Dr. P.C. Bhattacharjee, Prof. Department of Zoology, Gauhati University. I am greatly indebted to him for providing his valuable personal collections of literature as well as the laboratory facilities in the Zoology Department of Gauhati University.

I record my sincere thanks to Prasanta Saikia, Lecturer, Dept. of Zoology, Gauhati University, Bibhab Talukdar and Dr. Rathin Barman, Research workers, Dept. of Zoology, Gauhati University for their encouragement and valuable suggestions throughout this study.

I specially thank my wife Anita Thakur, my son Palash and daughter Antareepa who encouraged me always and wanted to see me go up the ladder of academics.

I am thankful to my colleagues J. K. Nath and D. Khanikar who remained sympathetic and helpful, while I was persieving this course.

Thanks are also due to my students specially Sanjib and Ratul for their help and co-operation in collecting the data. I record my deep sense of gratitude to all the staff of K. N. Park for allowing me to collect data inside the Park. I also take this opportunity to express my gratitude to the village people residing near the wetlands where I carried out the study for their priceless assistance and cheerful company during the present endeavour.

Last but not the least, I acknowledge the services of Ashok Dey of BLAZE COMPUTER SYSTEMS, Guwahati for printing the thesis.

(Porag Kumar Thakur)
Sr. Lecturer, Dept. of Zoology,
