ACKNOWLEDGEMENT

I wish to convey my deep sense of gratitude to my teacher and guide Dr. M. M. Goswami, Reader in the Department of Zoology, Gauhati University, Assam for his painstaking supervision and guidance of my research work.

I am indebted to the following persons who have contributed in various ways to the completion of my research project: Sri N. Ahmed, Director of IFM, Rani Kamrup for permitting me to undertake research works; Dr. Faruq Ahmed, Department of Nutritional Biology, Faculty of Veterinary Sciences, Assam Agricultural University for kindly extending valuable help to me in the chemical analyses of the poultry droppings; Sri Barun Deb of the office of the Public Analyst, Government of Assam for physicochemical analyses; Dr. Mahadeb Choudhury, Senior Scientist, CICFRI, Guwahati for statistical analyses; Dr. Hitendra Duara, DFDO, Kamrup for his inspiration, help and encouragement extended to me from time to time; Sri Ananda Kalita, Fishery Officer, IFM, Rani for his help in field survey; Professor Robin Goswami of Department of English, Cotton College, Guwahati for his constant encouragement and Sri Keshab Chandra Goswami, Director, Computer Solutions for his help and cooperation.

I acknowledge the various helps rendered by my wife Ms Mayuri Puzari Goswami. My sincere thanks are also due to Sri Pradip Kumar Sharma for his help and cooperation. I also gratefully acknowledge the help of Sri Atanu Biswas and Sri Banajit Phukan who have typed out my final manuscript.

Guwahati, February 17, 1997

(P. M. GOSWAMI)
