ACKNOWLEDGEMENT

The writing of acknowledgement is a memorable part of the thesis. As I have taken several years journey of writing up a thesis, I have been piloted and assisted by various people to whom I am very grateful.

I owe a special debt of gratitude to my supervisor, Dr. Dilip C. Nath, Professor, Department of Statistics, Gauhati University for his invaluable advice and unwavering support for me. It is a sweet memory to be remembered throughout my life to work under his able guidance and companionship.

I am immensely indebted to Dr. Kishore K. Das, Reader, Department of Statistics, Gauhati University for his affectionate guardianship treatment, advice and motivation to carry out this work successfully. I am also grateful to Dr. Dibyajyoti Bhattacharjee, Reader, Department of Management, Assam University and former senior lecturer, Department of Statistics, Gauhati University for his friendly companionship during my research period. He is the person who received me for the first time at Gauhati University and extended his helping hand to me for all the time.

I take this opportunity to express my heartfelt gratitude to Professor and Head Dr. L. Chowdhury and all the faculty members of the Department of Statistics, Gauhati University, India for their informative suggestions and encouragement at various stages of research work.

I wish to thank all the research scholars and staffs of this Department for their all time cooperation. Special thanks to Prasenjit Sinha, a research scholar, for his all round help in the department as well as in the hostel.

I am also thankful to the boarders of the RCC-V research hostel, Gauhati University for their friendly cooperation. Without mentioning the name of Delowar Hossain, Bhupen Baruah, Diganta Baruah, Ansarul Haque and Mazidul Islam this writing of acknowledgement will be incomplete as I cannot forget their help in my life.

I would like to thank Shahjalal University of Science and Technology, Sylhet for giving me the study leave with pay to pursue my Ph.D. program. I am also thankful to my colleagues of the Department of Statistics of SUST, Bangladesh for their kind cooperation and inspiration for higher studies.

I owe my deep sense of gratitude to my parents, who brought me into the world, instilled in me the desire to succeed academically, and loved, supported and sacrificed for me throughout my academic years. The present thesis is an effort to implement the dream of my late father in law. The acknowledgement cannot be concluded without expressing appreciation to my sisters Rabaka and Rumana, brothers and sister in law Sumon, Shamim and Ruma, maternal uncles Mosharraf Hossain and Dulal and to my mother in law for their encouragement in the endeavor. A special word of thanks to my wife Runu and my daughter Noshin who missed me too much and showed appreciable patience during my absence at home.

Finally, with heartfelt gratitude to my almighty creator, who has given me the love, hope and strength I need to complete this thesis.

(Md. Nazrul Islam)
