ACKNOWLEDGEMENTS

I am greatly indebted to my respected research guide Dr. C.C. Bhattacharjee, Professor (Retd.), Dept. of Geological Sciences, Gauhati University and Dr. D.C. Goswami, Professor in Geography and Head (I/c), Dept. of Environmental Science, Gauhati University and Head (Hon.), Assam Remote Sensing Application Centre, Guwahati for their constant inspiration, encouragement and careful scrutiny of my works in connection with this thesis. Professor Bhattacharjee showed keen interest in the author both as a person and a scholar. Professor Goswami as a guide provided enthusiasm and encouragement to register for Ph.D. work and constructive suggestions throughout the period of the doctoral research.

My deepest gratitude is due to Dr. A.K. Goswami, Director, Assam Science Technology and Environment Council for the valuable suggestion, encouragement and facilities provided to me during the course of the works.

I like to gratefully acknowledge the encouragement and advice from my professors in the Department of Geological Sciences of Gauhati University.

My thanks are also due to Mr. K.C. Prasad, the then director of Geology and Mining, Government of Assam for the encouragement and leave facilities extended to me for the Ph.D. work at Gauhati University.
Thanks are also due to my well-wisher Mr. B.P. Medhi, Deputy Director (Retd.), Directorate of Geology and Mining, Government of Assam whose continuous encouragement was in no way less responsible for completion of my work.

I also remember with gratitude the help rendered by Mr. J.C. Dutta, geologist, G.S.I., Messrs N.K. Chowdhury, U.K. Baruah and J.D. Goswami, Geologists, Directorate of Geology and Mining during the period of my research.

During my visit to NRSA, Hyderabad I have had the opportunity to meet and discuss with Dr. D.P. Rao, Mission Director, Dr. A. Bhattacharya, Head, Geosciences division, Dr. A. Perumal, Scientist and Dr. R. Ramakista Reddi, Scientist, about different aspects of my doctoral research. I thank them all for their useful comments and suggestions on the subject.

Thanks are also due to Mr. D. Mitra, Retd. Director, Central Groundwater Board, Govt. of India, for according permission to consult the report containing dugwell and borewell information available with the department.

Mr. B.P. Duarah, Mr. P.P. Deka, Miss B. Sarania, scientific officers at the Assam Remote Sensing Application Centre who have rendered valuable assistance to the author to complete the work deserve special thanks.
The valuable cartographic support provided by Mr. A.J. Sharma, cartographer, Mr. B. Goswami, Mr. B.N. Sharma, Mr. P. Deka and Mr. B. Das, draughtmen at ARSAC is duly acknowledged.

Besides, I would like to express my sincere gratitude to the various authors, publishers and organisations for using their learned papers, books, journals, reports and scientific data in connection with my research work.

I could not have completed my Ph.D. work without the active support and encouragement of my wife, Mrs Niru Goswami, my family members and relatives. I thank them all wholeheartedly for their encouragement and patience.

Finally, I thank Mr. K. Kalita of Gauhati University for rendering an excellent service with his electronic typewriter.

I.D. Goswami
