ACKNOWLEDGEMENTS

This thesis is compilation of scientific journey for my Ph.D. It reflects my efforts of about half a decade in Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala. This thesis has been kept on track and been seen through to completion with the support and encouragement of my mentor and numerous people including my well wishers, my friends and colleagues. At the end of my thesis I would like to thank all those people who made the realization of this thesis possible.

First and foremost I wish to submit my thesis at the feet of almighty. I am highly indebted to almighty who has given me strength to accomplish this big task.

At this moment of accomplishment, first of all I pay homage to my guide, Prof. (Dr.) Rajesh Kumar Goel, Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala. This work would not have been possible without his guidance, support and encouragement. Under his guidance, I successfully overcame many difficulties and learned a lot. He has been actively interested in my work and has always been available to advise me and constantly supported and encouraged where it was needed. I am very grateful for his patience, motivation, enthusiasm, and immense knowledge in experimental pharmacology that, taken together, make him a great mentor. His unflinching courage and conviction will always inspire me, and I hope to continue to work with his noble thoughts.

I take this opportunity to sincerely acknowledge the Indian Council of Medical Research (ICMR), Government of India, New Delhi, for providing financial assistance in the form of Senior Research Fellowship (PROJECT GRANT NO.: 45/33/2010/PHA-BMS) which buttressed me to perform my work comfortably.

I gratefully acknowledge Dr. Pawan Krishan, Head of Department and Dean Faculty of Medicine, for providing all the necessary facilities for the research work and for his understanding, encouragement and personal attention which have provided good and smooth basis for my Ph.D. tenure. Dr. Gulshan Bansal (Associate Professor) deserve my sincere expression of thanks for helping in standardization of HPLC methods. I am also grateful to Troikaa Pharmaceuticals Ltd. (Dehradun, India), Q. P. Pharmachem (Baddi, India) for providing various gift samples.

I am also grateful to the members of Departmental Research Board of the Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala, Dr. Ashok Kumar Tiwari (Professor), Dr. Gurpreet Kaur (Associate Professor), Dr. Richa Shri (Associate Professor), Dr. Nirmal Singh (Associate Professor), Dr. Dimple Chopra (Assistant Professor), Dr. Vikas Rana (Assistant Professor), Dr. Om Silakari (Assistant Professor), Dr. Suresh Kumar (Assistant Professor), Ms. Yogita Bansal and other faculty members of the department for their constructive comments and thoughtful suggestions during the time of annual seminars. I am also thankful to the non-teaching staff of the department for their generous support and cooperation.

This journey of Ph.D would have never been so blissful, stimulating and fun filled environment without friends and lab mates. I take this opportunity to say heartful thanks to some
people from early and present days of my research tenure. My thanks go in particular to Dr. Damanpreet Singh (Scientist, IHBT, Palampur) with whom I started this work and many rounds of discussions on my project with him helped me a lot. I admire his distinguished helping nature in academics as well as social life too. My special appreciation goes to Dinesh Gawande, Balraj Saini, Dipak Biswas, Tanveer Singh, Dhiraj Kaushik and Priyanka Pahwa for their friendship, encouragement sharing odd and even phases of life. I would like to acknowledge the PALI’S Tea at GOL MARKET which added an extra color to my gracious moments at University. Combination of friends and PALI’S Tea always stimulated, energized and relieved me from all the stress. I also like thank Dr. Sanjay Kumar (Associate Professor in Chemistry, Multani Mal Modi College, Patiala) and Dr. Shelly Arora (Associate Professor in Mathematics, Punjabi University, Patiala) for their kind support of several evening Tea and Dinners at their place.

I am indebted to my many student colleagues for providing a stimulating and fun filled environment which includes Ramandeep Kaur, Raigarinder, Rakesh, Kailash, Ranjit, Jasmine, Seerat, Rohit, Deepdarshan, Puneet, Neetu, Navjot, Rohit Bansal, Cheenu Gupta and friends, Dr. Puneet Utreja, Dr. Richa Puri, Anupam Jamwal, Nancy Suthar.

I find it difficult to pen down my deepest sense of indebtedness toward my parents (Father Shri. Mithilesh Kumar Mishra and Mother Late Smt. Saroj Mishra), elder brother (Mr. Manish Mishra) and sister-in-law (Mrs. Alka Mishra), younger sister (Mrs. Swati Mishra) and Brother-in-law (Mr. Sudhanshu Mishra) who soulfully provided me their constant support and the right impetus to undertake the challenge of this proportion like all other spheres of life, for what I cannot measure but treasure. They believed in me before I believed in myself. I will always be in debt for their supports provided throughout the life and patience to see light in the face of darkness and stimulating me to move in the right direction during the odyssey and to get me to the right path for achieving success. Without their moral support, invaluable and constant inspiration, it would have not been possible for me to carry out my research work successfully. My nephew Master Atharva Mishra always enlightened my life with his blissful smile.

I will remain forever indebted to all the animals, which were scarified during the experiments, with the noble purpose of widening the horizons of science.

“No one who achieves success does do without acknowledging the help of others. The wise and confident, acknowledge this help with Gratitude.”

Awanish Mishra
