

ACKNOWLEDGEMENT

I am grateful to my guide, Professor P.H. Talukdar, Department of Instrumentation & USIC, Gauhati University for all the help, guidance, encouragement, interaction, discussion, teaching and motivation I received during the entire span of my research work. I thank Professor P.K. Boruah, Head, Department of Instrumentation & USIC for the help and guidance I received during the research work. I express sincere thanks to Professor Minakshi Devi, Head, Department of Physics, Gauhati for the help and guidance I received during the research work.

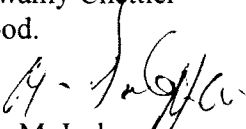

I owe sincere thanks to Dr. R.S. Dabas, Scientist, National Physical Laboratory, New Delhi for the help and encouragement I received during the period of my research work.

I offer sincere thanks to Dr. M.R. Sivaraman, Scientist, Space Application Centre (ISRO), Ahmedabad and Dr. Sudha Ravindran, Scientist, SPL, VSSC, Trivandrum for their valuable guidance and help during my research work.

I am specially grateful to Dr. S. Pal, Programme Director, (SATNAV), ISRO & Mr A Ganeshan, Project Director, GAGAN, ISRO for giving me permission to use the GAGAN ionospheric data to carry out this thesis.

I also offer my sincere thanks to Professor Ashis Dasgupta, Deptt. of Physics, Institute of Radio Physics & Electronics, Kolkata, Professor A.D. Sharma, Director, R&T Unit for Navigational Electronics, Osmania University, Hyderabad and Dr. Kalyan Bhuan, Lecturer, Deptt. of Physics, Dibrugarh University, Assam for their valuable guidance and help during my research work.

I dedicate this thesis to my father late Shri I. Madaswamy Chettier who instilled in me a sense of search in my early childhood.

M. Irulappan
