## CHAPTER I: INTRODUCTION 1-16

### A. GENERAL INFORMATION 1

a) Location and accessibility 1

b) Physiography 2

c) Drainage 2

d) Botanical and zoological information 3

e) Soil 4

f) Climate 4

g) People and culture 4

### B. BACKGROUND INFORMATION 5

a) Previous geological records 5

b) Previous geophysical records 7

c) Previous records on economic minerals 7

d) Mining and exploration records 10

### C. SCOPE OF THE PRESENT WORK 11

a) Geomorphology of the area 11

b) Distribution of economic minerals 12

### D. FIELD AND LABORATORY WORKS 14
CHAPTER II : GEOLOGY OF THE REGION

A. BRIEF GEOLOGY OF NAGALAND-MANIPUR OPHIOLITE BELT

B. GEOLOGY OF THE KHUDENGTHABI AREA
   a) General outline of geology of the area
   b) Geological structure of the area around Khudengthabi
   c) Geology of the ultramafics and associated rocks of Khudengthabi

C. PETROGRAPHIC DESCRIPTION OF THE ULTRAMAFIC AND ASSOCIATED ROCKS OF THE KHUDENGTHABI AREA
   a) Peridotite
      (i) Harzburgite
      (ii) Lherzolite
      (iii) Wehrlite
      (iv) Massive olivine peridotite
      (v) Layered olivine peridotite
      (vi) Hornblende peridotite
   b) Dunite
   c) Gabbro
   d) Pyroxenite
   e) Bronzitite
   f) Serpentinitized marble
   g) Amygdaloidal extrusive rock

D. SERPENTINITES
CHAPTER III: ECONOMIC MINERALS

A. CHROMITE

a) Mode of occurrence 50
b) Distribution of chromite 54
c) Types of chromite
   (i) Disseminated chromite 60
   (ii) Orbicular chromite 61
   (iii) Nodular chromite 61
   (iv) Massive chromite 66
d) Ores microscopic studies of the chromite ore 69
   (i) Disseminated chromite 69
   (ii) Orbicular chromite 71
   (iii) Nodular chromite 71
   (iv) Massive chromite 83
e) Geochemistry of the chromite ore 91
f) Geothermometry 92

B. MINOR ECONOMIC MINERALS ASSOCIATED WITH THE CHROMITE ORES 93

a) Magnetite-ore microscopic studies of magnetite 93
b) Auriferous minerals 95
   (i) Distribution 95
   (ii) Physical properties and mode of occurrence of auriferous minerals 95
c) Nickel silicate mineral (Garnierite) 103
C. GENETICAL INFERENCES ON CHROMITE ORE BASED ON ORE MICROSCOPIC STUDIES, ORE PETROLOGY AND GEOCHEMISTRY OF THE CHROMITE ORE

a) Introduction 104
b) The problem of genesis of the chromite ore in Khudengthabi area 107
c) Discussion on genesis of chromite ore 112
   (i) Structures and textures of ore 112
   (ii) Gravity settling of chromite grains and nodules 114
   (iii) Chromite nodules and their formation 118
   (iv) Pressure regime in the depositional chambers and its effects on the ore structures 124

D. SIGNIFICANCE OF ORE GENESIS, ITS USE IN CHROMITE ORE PROSPECTING 134

CHAPTER IV: IDOCRASE OF THE KHUDENGTABI AREA 137 - 140

A. DISTRIBUTION OF IDOCRASE 137
   a) Introduction 137
   b) Distribution of idocrase in Khudengthabi area 137

B. DESCRIPTION OF IDOCRASE 141
   a) Colour and form 141
   b) Petrological assemblage 143
c) Mineralogy 145
CHAPTER V : DECORATIVE STONES 150-159

A. SERPENTINIZED MARBLE (Verd green marble) 150
   a) Distribution and mode of occurrence 150
   b) Physical characters 150
   c) Industrial possibilities 150
   d) Industrial potential 150

B. MADRAS BLACK STONE 159

CHAPTER VI : DISCUSSION 160-193

A. GEOLOGICAL HISTORY OF THE KHUDENGTHABI AREA AND ITS RELATIONSHIP TO THE ORE GENESIS 160
   a) Geological history of the sedimentary trough 162
   b) Geological history of the igneous intrusion 164
   c) Nature of emplacement of the igneous rocks 167
   d) Ophiolite intrusives in relation to ore genesis 170

B. MINERALOECONOMIC POTENTIAL OF THE KHUDENGTHABI AREA 178
   a) Economic significance of chromite 178
   b) Economic significance of idocrase 180

C. SUMMARY AND CONCLUSIONS 185
