LIST OF PLATES

Photographs and photomicrographs

A. Photographs:

Plate 1. General view of the Tura Range
Plate 2. General view of the Mangwalbibra
Plate 3, Fig. 1. Joints in clay samples  
Fig. 2. Graded bedding
Plate 4, Fig. 1. Cross-stratification  
Fig. 2. Section of the Tura Sandstone Formation
Plate 5, Fig. 1. Weathered limestone  
Fig. 2. Contact of the Siju and Rewak Limestone Formations
Plate 6, Fig. 1. Limestone near Darang Ern-Aning  
Fig. 2. Foraminiferal limestone from Mangwalbibra
Plate 7, Fig. 1. Pyrite crystals in limestone  
Fig. 2. Calcite crystals in Upper Siju Limestone from Sankinigiri  
Fig. 3. Limestone with chert nodules
Plate 8, Fig. 1. Limestone from Dalmi river  
Fig. 2. Contact of fossiliferous shale and Limestone  
Fig. 3. Nummulitic limestone of the Rewak Formation
Plate 9, Fig. 1. Alternation of shale and sandstone  
Fig. 2. Cross-bedding
Plate 10, Fig. 1. Concretion showing septaria  
Fig. 2. Voidal concretions

B. Photomicrographs:

Plate 11, Fig. 1. Strained and unstrained quartz  
Fig. 2. Micaeous mineral
Plate 12, Fig. 1. Zircon and tourmaline  
Fig. 2. Concertina (Staurolite)
Plate 13, Fig. 1. Glauconite infiltration  
Fig. 2. Equant calcite crystals  
Fig. 3. Aragonite and calcite
Plates 14, Fig. 1. Radial and granular hyaline foraminifera
Fig. 2. Oöid filled up with drusy calcite
Fig. 3. Oöid partially filled up with calcite

Plates 15, Fig. 1. Rim-cemented calcite and strained calcite
Fig. 2. Dog-tooth ferroan calcite

Plates 16, Fig. 1. Aggrading and porphyroid neomorphism
Fig. 2. Porphyrotopic fabric

Plates 17, Fig. 1. Microlaminae
Fig. 2. Spherulite
Fig. 3. Microstylolite

Plates 18, Fig. 1. Vugs or voids
Fig. 2. Calcite veins

Plates 19, Fig. 1. Pyrite crystal
Fig. 2. Magnetite and hematite minerals

Plates 20, Fig. 1. Radial hyaline foraminifera
Fig. 2. Partial alteration of aragonite to calcite

Plates 21, Fig. 1. Bimineralic gastropod shells
Fig. 2. Oöids, rim-cemented and strained calcite

Plates 22, Fig. 1. Porphyroid neomorphism
Fig. 2. Porphyrotopic fabric and microlaminae

Plates 23, Fig. 1. Poikilotopic fabric
Fig. 2. Calcite veins
Fig. 3. Hematite

Plates 24, Fig. 1. Strained and unstrained quartz
Fig. 2. Microcline and plagioclase

Plates 25, Fig. 1. Tourmaline
Fig. 2. Concertina
Fig. 3. Kyanite
