ACKNOWLEDGEMENT

With profound pleasure I acknowledge the help and guidance I received from all quarters during the course of my research work.

At the outset, I acknowledge the academic acumen, continuous encouragement, analytical ability, incisive comments and brotherly affection of my research guide Dr. K. C. Sankaranarayanan, Director, School of Social Sciences and Professor & Head of the Department of Applied Economics, Cochin University of Science & Technology, Cochin-22. His direction, guidance, goodwill and ever helping attitudes are highly instrumental in the accomplishment of this thesis. Without his friendly approach, when I am dejected of not getting the response from various companies, his brotherly approach, when I am making mistakes, his professorship in supervising me when I am little delaying the study, this research report may not have seen the light. I can now acknowledge him only by sincerely and wholeheartedly thanking him for all the help, guidance and cooperation that I received from him during the course of this study.

It is my great privilege to record my heartfelt gratitude to Prof. P. Ramachandra Poduval, Director, School of Management Studies and also to former Directors namely; Prof. N. Ranganathan and Dr. N. I take this opportunity to thank the Management of various companies who have furnished the necessary data for this study. I also thank my friends in various companies who have helped me to collect the data for my study. It will be a major fault on my part if I am not making use of this opportunity to at least thank the Managers of 22 Companies who, inspite of their busy schedule, were kind and generous enough to grant me personal interviews and to provide copies of their balance sheets and details of capital expenditure policies and procedures prevailing in their organisations.

I am indebted to the Management of Indian Aluminium Company, Limited, Calcutta and Alupuram & Hirakud Works for the opportunity and freedom given to me to undergo this research programme. I wish to express my appreciation to Mr. P. K. Velayudhan Pillai, Mr. K. T. Mathew, Mr. J. A. Khan, Mr. Dhananjaya Sarangi, Mr. Jayaram Meher, Mr. Rankit Gangopadhyay, Mr. B. N. I am thankful to M/s. Modern Xerox, Sambalpur for the necessary printing and binding work done to make this report a presentable one.

At last but not the least, I am extremely grateful to my mother, wife and children who have taken enough pressure of life to leave me alone with my research work. It should not have been possible for me to complete this research work without the constant encouragement poured on me by my relatives.

This will not be complete without acknowledging my sincere thanks to all my friends who have helped me in various ways and encouraged me continuously to make this study a SUCCESSFUL REALITY.
