ACKNOWLEDGEMENT

This piece of work has been accomplished with the Almighty God. His blessings and His power that work within me and also with the people behind my life for inspiring, guiding and accompanying me through thick and thin. It is a pleasant moment to express my heartfelt gratitude to all. I dedicate this page to each and everyone who have helped me to explore the expanses of knowledge.

This thesis arose in part out of years of research that has been done since I came to Molecular and Cellular Neurobiology Unit, Dept. of Biotechnology, CUSAT. By that time, I have worked with a great number of people whose contribution in assorted ways to the research and the making of the thesis deserved special mention. It is a pleasure to convey my gratitude to them all in my humble acknowledgment.

First and foremost, I take immense pleasure to express my sincere and deep sense of gratitude to my supervising guide and mentor, Dr. C. S. Paulose, Professor Emeritus, UGC-BSR Faculty Fellow, Dept. of Biotechnology, Cochin University of Science and Technology for his sustained interest, creative suggestions, motivation and exemplary guidance throughout the course of this work. I am deeply indebted to him for providing me necessary facilities to complete this work. I am short of words to express my sincere appreciation for his patience and tolerance towards me. I extend my profound thankfulness for his constant encouragement and timely advice. I solemnly submit my honest and humble thanks to him for bringing my dreams into reality. His understanding, encouraging and personal guidance have provided a good basis for the present thesis. I could not have imagined having a better advisor and mentor for my Ph.D. study. I am solemnly indebted to him more than he knows or words can ever convey.

I offer my sincere thanks to Prof. E. Vijayan, UGC-Visiting Scientist, Centre for Neuroscience, Dept. of Biotechnology, Cochin University of Science and Technology and Dr. Oommen V Oommen, Department of Zoology, University of Kerala for their help and encouragement during the period of my research. Also, I wish to extend my gratitude to Dr. Rani Joseph, Dept. of Polymer Science and Rubber Technology, CUSAT for her help, encouragement and advice.
I would like to acknowledge the Department Head, Dr. Sarita G. Bhat, Dr. Padma Nambisan and Prof. M. Chandrasekaran, faculties of the Department of Biotechnology, CUSAT for their advice and support throughout my work.

I take this opportunity to thank Prof. R. Muraleedharan Nair, former Dean and Godfrey Louis, Dean Faculty of Science, Cochin University of Science & Technology for his help extended to me.

I thank all the teachers of my school days, graduation and post-graduation for laying my foundations.

I sincerely acknowledge my senior colleagues Dr. Jackson James, Dr. Ani V. Das, Dr. Balarama Kaimal, S, Dr. Akash K. George, Dr. Gireesh, G, Dr. Reas Ksuan S, Dr. Binoy Joseph, Dr. Savitha Balakrishnan Dr. Nair Ameé Krishnakumar, Dr. Anu Joseph, Dr. Pretty Mary Abraham, Dr. Jobin Mathew, Dr. Peeyush Kumar T, Dr. Sherin Antony, Dr. Jes Paul, Dr. Nandhu M. Mrs. Manjula, Ms. Sunitha, Mr. Indrajith, Ms Serine and M.Sc. students of this Department for their friendship, help and co-operation.

I thank the authorities of Amrita Institute of Medical Sciences and Research Centre, Cochin and Animal Breeding Centre, Kerala Agricultural University, Mannuthy for readily providing animals for this work.

This research has been supported and funded by various organizations. I am grateful to Union Grants Commission for granting me Maulana Azad National Fellowship during the course of my research. I express my gratitude to all the past and present office staff in the Department of Biotechnology for their help and co-operation. I also thank the authorities and staff of Cochin University of Science and Technology for their help and co-operation.

I would not have completed my thesis without the selfless help and encouragement from my dear friends. To my friends, who are the sunshine of my life and believed in my capabilities more than I did. Thank you all for being there when I needed help. I will never forget the times you have spent to make me lively and cheerful even in the cloudiest of my days.

My joy knew no bounds in expressing heartfelt thanks to my beloved Parents. With enduring patience they stood by me during the ups and downs of my life. I can barely find words to express all the wisdom, love and support given to me by my beloved parents and parents -in- law for their unconditional love, fidelity, endurance and encouragement. I take this moment to express my never ending love and respect towards them for their blessings. I am deeply indebted to my dear understanding husband, Varun and lovable daughter, Vaiga for motivating me in effectively working and accomplishing my goal. I owe my thanks to my beloved grandparents, uncles, aunts, cousins, nieces and nephews for their inseparable support and prayers throughout my Doctoral study. They have been selfless in giving me the very best of everything and I express my deep gratitude for their love, sacrifice and support without which this work would not have been complete.

There may be so many others whom I may have inadvertently left out. I take this opportunity to thank all of them for their help.
My tribute…..to a number of animals who have paid a price with their lives and suffering in the name of human protection. I pay my tribute to their sacrifice and pray that it is not in vain.

The woods are lovely, dark and deep.
But I have promises to keep, and miles to go before I sleep
