ACKNOWLEDGMENTS

I express my utmost obligation and deep indebtedness to my supervising teacher Prof. K.K Vijayan for efficient guidance and excellent directives in successfully completing this investigation. Throughout my research work, I was getting very personal attention and healthy criticisms at each and every stage of the work. He was very cordial, loving and motivating. It is indeed a matter of pride to me to remember the rewarding moments and accomplishment in this scientific endeavor.

It is with immense pleasure that I express my heartfelt gratitude and sincere thanks to the former Heads of the department Dr. T.D Radhakrishnan Nair, Dr. M.P Kannan, Dr. K.K Aravindakshan, Dr. K. Krishnankutty and the present Head of the department Dr. P. Muhammed Shafi, Department of Chemistry University of Calicut for providing me the necessary facilities for the successful completion my research work.

I gratefully acknowledge my indebtedness to Prof. N.R. Krishnaswami for a critical evaluation and efficient suggestion on my work.

I wish to place on record my deep gratitude to the faculties of the department of chemistry for their parental affection, constant encouragement and unforgettable helps that they extended during my course.

I wish to express my deep sense of appreciation to Dr. Suresh Das scientist for giving me the permission to carryout the photo physical studies at National Institute of Interdisciplinary Science and Technology (NIIST), Trivandrum. I am also grateful to Dr. V.K Praveen and Dr. Saleesh for the invaluable assistance in performing the photophysical analysis at NIIST.

I use this opportunity to express my sincere thanks to Mrs. Sreelekha, T.T. Scientist, Division of Cancer Research, Regional Cancer Centre, Trivandrum, Mr. Aravind, S.R and Baby Prathap, Research Fellows, Division of Cancer Research, RCC Trivnadrum for their helps in the biological studies.
I acknowledge with deep appreciation the unforgettable help and support rendered by Mr. Shinu V.S, Mr. Srinivasan, G.V. and Mr. Nidhin Paul during the entire course of my research life.

I am grateful to Dr. K.T.V. Vijayan, Lecturer, Pazhassiraja college, Pulpally; Mrs.V.N. Jisha and Mr. V. K. Srinivasan Department of Botany, University of Calicut for the unaccountable help in the biological studies.

I also avail this opportunity to thank all the non-teaching staff my in the department of chemistry for their constant encouragement and help extended during the course.

I wish to express my sincere thanks to Dr. Sreekumar, V, Dr. Basheer M.C., Dr. Vidya N., Mr. Beneesh P.B, Ms. Chithra Mohan, M. Divya, Ms. Jisha and Mr. Ratheesh of National Institute for interdisciplinay science and Technology (NIIST), Trivandrum.

It is also a pleasure to acknowledge the enthusiastic support and assistance given to me by my lab mates Mrs. Jyothy, Mr. Mohammed Arif, Mrs. Sreelekha, Mr. Pramod K., Mr. Sreejith P., Mr. Aneesh M.H and all other research scholars and friends of the department.

I thank Dr. E.A Jose and Dr. Beena Jose for the love and parental affection shown to me during the entire span of my research work.

I am very much indebted to my family member for their constant support and encouragement in my academic life.

The final form of the thesis owes much to the talents of the members of Bina Photostat, Villunniyal.

Finally, I thank the Almighty God for the divine providence, which was the leading light throughout this scientific exertion.

Ranjith . C.
