ACKNOWLEDGEMENTS

I have great pleasure in expressing my deep sense of gratitude and indebtedness to Dr P.S.B.R. James, Retired Director, C.M.F.R.I. and Dr N. Gopalakrishna Pillai, Senior Scientist, C.M.F.R.I. for their valuable guidance and wholehearted support during the period of study. I am also greatly indebted to Dr P.V. Rao, Retired Principal Scientist, C.M.F.R.I. and Dr M. Devraj, Director, C.M.F.R.I. for extending all help in the submission of my thesis. Sincere thanks are also due to Dr A. Noble, Retired Principal Scientist and Dr C. Susheelan Senior Scientist and Officer-in-charge of Post-graduate programme in Mariculture, C.M.F.R.I. for their encouragement throughout the period of study. I am indebted to Dr N. Sridhar Senior Scientist, C.M.F.R.I. for critically going through my results and discussions and offering valuable suggestions. A special word of thanks is also due to Mr A. Nandakumar, Technical assistant, C.M.F.R.I. who was extremely helpful in procuring in time all the necessary items for the present study. Thanks is also due to Mr M.J. John for the help rendered in the timely completion of all formalities.

I am indebted to Dr P. Laxmilatha, Dr Kuldeep Kumar Lal, Dr A. Gopalakrishnan, Dr A.K.V. Nasser, Dr Mrs Manipal, Mrs Prathibha Puthran, Mrs Bindu Mohanty and all my other classmates for their help, encouragement and support during the tenure of the study.

I am especially grateful to Ms Rosalie Shaffer, Technical Information
Specialist, National Oceanic Atmospheric Administration National Marine Fisheries, Panama city Laboratory Library, 3500 Delwood Panama City, USA for her magnanimous and unfailing response to my unending request for references and reprints.

I express my deep sense of gratitude to Dr K. Rengarajan, Senior Scientist (Electron Microscope laboratory), C.M.F.R.I. Cochin for his help in preparing the blocks. I extend my thanks to Dr G.F.X. David, Associate Professor, Department of Anatomy, All India Institute of Medical Sciences, New Delhi for his help rendered in the conduction of electron microscope studies. The co-operation extended during the ultrastructural studies by the members of Regional Electron Microscope facility at the All India Institute of Medical Sciences being supported by the Department of Science and Technology, Government of India is also duly acknowledged.

I wish to place on record my thanks to the Indian Council of Agricultural Research (ICAR), New Delhi, for granting me the Senior Research Fellowship during the tenure of which this study was carried out.

Last but not the least, I am deeply indebted to all my family members for providing me all the support and cooperation during the period of the study.
