List of Tables

1.1 Classification of low pressure systems in North Indian Ocean . . . 4
1.2 Ocean basin-wise variation of tropical cyclones by from 1958-1977. 6
1.3 Summary of the ENSO impacts on tropical cyclone activity in the different regions. 20

2.1 Decadal distribution of monsoon depressions reported and those without tracks or short lived. 29

3.1 Summary of the distribution of cyclones from January to December. 40
3.2 Summary of the distribution of tropical cyclone genesis days in the different categories of MJO for the various amplitudes taken. 42
3.3 Month-wise distribution of cyclones in each phase of MJO. 45

4.1 List of years when El Nino or La Nina and/or negative or positive IOD occured. 56
4.2 The distribution of tropical cyclone intensity categories in the different phases of ENSO. 65

6.1 Details of 77 cyclones considered in the study. 83
6.2 Correlation coefficient between intensity (maximum sustained wind speeds in knots) and other parameters. 89
6.3 Correlation values when cyclones with lifetime less then 4 days removed. 96

8.1 Details of the 8 cyclones under category 1. 117
8.2 Details of the 12 cyclones under category 2. 117
8.3 Details of the 12 cyclones under category 3. 118
