Acknowledgements

I express my deep sense of gratitude to my guide, Prof. M. C. Radhakrishna. I am highly grateful to him for his guidance, encouragement and cooperation, without which I would not have completed my research work.

It gives me an immense pleasure to express my deep sense of gratitude, sincere and heartfelt indebtedness thanks to my mentor, Dr. A S GOVIND, Associate professor in Physics, Vijaya college, Bangalore for the support and invaluable discussion, keen interest in the progress of this work and encouragement during the course of this work. His intuitive insight in physics and methodical approach in carrying out research has an everlasting impression on my mind.

I would like to express my warm and heartfelt thanks to Dr. S. Krishnaprasad, Dr. D.S.Shankar Rao and Dr. Geetha G. Nair, Centre for Soft Matter Research (formerly Centre for liquid crystal research), for they provided me with the necessary information to carry out my research work. I have benefited immensely from their positive influence.

I owe my sincere gratitude to Dr.Gurumurth Hegde, Faculty of Industrial Science and Technology, Universiti Malaysia Pahang, Malaysia, for their advice and encouragement. Their kind support and guidance have been of great value in this study.

I take this opportunity to sincerely acknowledge the Management, Chairman, Principal and Vice-Principal of B.M.S. College of Engineering for supporting me in many ways to carry out this research work.

I have great pleasure in thanking Dr. T.S. Pranesha, HOD, Department of Physics, B.M.S. College of Engineering, for the fruitful academic discussions and constructive criticism about my work.
My sincere thanks are due to my colleagues Dr. M.V. Muregendrappa, K. Ravishekhar, C. Chitra and T. Renuka for providing conducive and friendly atmosphere in the department.

I am very thankful to Prof. R.V. Anavekar, Prof. B.A. Kagali, Prof. Ramani, Prof. Sharath Ananthamurthy and Dr. N. Nagaiah, Department of Physics, Bangalore University, for their help in the administrative work. I also extend my thanks to all the Faculty members, Research Scholars and non-teaching staff of Physics Department, Bangalore University.

I would like to thank Dr. Appajigowda, Former Professor of Physics, Bangalore University, Bangalore, for their help at different stages.

I thank Dr. P. Nagaraj, and P. Aswini for their support and giving useful information in this regard.

Special thanks to my research colleagues B. Umesh, P. H. Suresh, M. Shivaram, N. Dhananjaya, A. Jaganatha reddy, Dr. C. M. Dinesh and Dr. Prashanth for providing a comfortable and friendly environment during this study.

I thank all the members of Library staff Raman Research Institute who were always eager to help me whenever I approached them.

Finally, my deep gratitude to my parents, my wife B.V. Mamatha and my daughter baby S. Shamitha and all the other members of the family for their loving care, moral support and sacrifice. During all these years they have kindly tolerated my negligence towards the family and my absence even when they needed me.

B L Suresha
