ACKNOWLEDGEMENT

At this very onest, it is a matter of great delight for me to acknowledge my intellectual indebtedness to those persons who extended their valuable co-operation without which it would have been impossible for me to bring out this thesis.

I first and foremost express my gratitude and appreciation to my research supervisor Dr. Hemanta K. Baruah, Vice Chancellor, Bodoland University, for his valuable guidance, advice, criticism and encouragement throughout the course of this research work and preparation of this thesis.

I take this opportunity to express my heartfelt gratitude to all the faculty members of the Department of Mathematics, Gauhati University for their valuable suggestions in preparing the thesis.

I express my sincere gratitude to Rituparna Chutia and Supahi Mahanta for their valuable advice and suggestions. Many other people have contributed directly or indirectly in the course of my work and their help is greatly appreciated.

I am deeply thankful to my old mother Suniti Dhar who inspite of suffering from various diseases, supported and encouraged me to complete the work. Sincere thanks are also extended to my elder sister Sipra Dhar and elder brother Sudip Dhar for their unconditional help, uncountable love and continued support which helped me to remain motivated in stressful and frustrated period of my life.
Last but not the least I remember my deceased father Late Hari Pada Dhar who has always been a constant source of inspiration and encouragement in every endeavour of my life.
