

LIST OF TABLES

Table No.	Table Name	Page No.
3.5.1	A Table showing Industries located in Saurashtra - Gujarat	88
3.14.1.1	A table Showing One Way Analysis of Variances - ANOVA	98
4.1.1	A Table showing List of Industries Studied	103
4.2.1	Table showing Descriptive Analysis of Means of Attributes Industry wise	104
4.2.2	A Table showing One Way Analysis of Variances ANOVA-Attributes	106
4.2.3	A Table Showing Post Hoc Analysis – Tukey HSD-Attributes and Industries	107
4.2.1.1	Table showing Descriptive Analysis of Means of Attribute ‘Dynamic’ Industry wise	109
4.2.1.2	A Table showing One Way Analysis of Variances ANOVA - Dynamic	110
4.2.1.3	A Table Showing Post Hoc Analysis – Tukey HSD – Dynamic and Industries	111
4.2.1.4	Table showing Descriptive Analysis of Means of Attribute ‘Emotionally Stable’ Industry wise	113
4.2.1.5	A Table showing One Way Analysis of Variances ANOVA- Emotionally stable	114
4.2.1.6	A Table Showing Post Hoc Analysis – Tukey HSD - Emotionally stable and Industries	115
4.2.1.7	Table showing Descriptive Analysis of Means of Attribute ‘Flexible’ Industry wise	117
4.2.1.8	A Table showing One Way Analysis of Variances ANOVA – Flexible	118
4.2.1.9	A Table Showing Post Hoc Analysis – Tukey HSD – Flexible and Industries	119
4.2.2.1	Table showing Descriptive Analysis of Means of	120

	Attribute ‘Commitment’ Industry wise	
4.2.2.2	A Table showing One Way Analysis of Variances ANOVA – Commitment	121
4.2.2.3	Table showing Descriptive Analysis of Means of Attribute ‘Proactive’ Industry wise	112
4.2.2.4	A Table showing One Way Analysis of Variances ANOVA – Proactive	123
4.2.2.5	Table showing Descriptive Analysis of Means of Attribute ‘Originality’ Industry wise	124
4.2.2.6.	A Table showing One Way Analysis of Variances ANOVA – Originality	115
4.2.2.7	Table showing Descriptive Analysis of Means of Attribute ‘Social Responsibility’ Industry wise	126
4.2.2.8	A Table showing One Way Analysis of Variances ANOVA – Social Responsibility	127
4.2.2.9	Table showing Descriptive Analysis of Means of Attribute ‘Visionary’ Industry wise	128
4.2.2.10	A Table showing One Way Analysis of Variances ANOVA - Visionary	129
4.3.1	Table showing Descriptive Analysis of Means of Attributes Economic Class wise	130
4.3.2	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Attributes	132
4.3.1.1	Table showing Descriptive Analysis of Means of Attribute ‘Originality’ Economic Class Wise	133
4.3.1.2	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Originality	134
4.3.1.3	A Table Showing Post Hoc Analysis – Tukey HSD Economic Class and Originality	135
4.3.1.4	Table showing Descriptive Analysis of Means of Attribute ‘Flexible’ Economic Class Wise	136
4.3.1.5	A Table showing One Way Analysis of Variances	137

	ANOVA-Economic Class and Flexibility	
4.3.1.6	A Table Showing Post Hoc Analysis – Tukey HSD Economic Class and Flexibility	138
4.3.2.1	Table showing Descriptive Analysis of Means of Attribute ‘Dynamic’ Economic Class Wise	139
4.3.2.2	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Dynamic	140
4.3.2.3	Table showing Descriptive Analysis of Means of Attribute ‘Emotionally Stable’ Economic Class Wise	141
4.3.2.4	A Table showing One Way Analysis if Variances ANOVA-Economic Class and Emotionally Stable	142
4.3.2.5	Table showing Descriptive Analysis of Means of Attribute ‘Commitment’ Economic Class Wise	143
4.3.2.6	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Commitment	144
4.3.2.7	Table showing Descriptive Analysis of Means of Attribute ‘Proactive’ Economic Class Wise	145
4.3.2.8	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Proactive	146
4.3.2.9	Table showing Descriptive Analysis of Means of Attribute ‘Social Responsibility’ Economic Class Wise	147
4.3.2.10	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Social Responsibility	148
4.3.2.11	Table showing Descriptive Analysis of Means of Attribute ‘Visionary’ Economic Class Wise	149
4.3.2.12	A Table showing One Way Analysis of Variances ANOVA-Economic Class and Visionary	150
4.4.1	Table showing Descriptive Analysis of Means of Attributes Educational Qualification wise	151
4.4.2	A Table showing one way analysis of Variances ANOVA-Attributes and Qualifications	153
4.4.3	A Table Showing Post Hoc Analysis – Tukey HSD-	154

	Attributes and Qualifications	
4.4.1.1	Table showing Descriptive Analysis of Means of Attribute ‘Emotionally Stable’ Educational Qualification wise	156
4.4.1.2	A Table showing One Way Analysis of Variances ANOVA-Emotionally Stable and Qualification	157
4.4.1.3	A Table Showing Post Hoc Analysis – Tukey HSD - Emotionally Stable and Qualification	158
4.4.1.4	Table showing Descriptive Analysis of Means of Attribute ‘Proactive’ Educational Qualification wise	159
4.4.1.5	A Table showing One Way Analysis of Variances ANOVA-Proactive and Qualifications	161
4.4.1.6	A Table Showing Post Hoc Analysis – Tukey HSD - Proactive and Qualifications	162
4.4.1.7	Table showing Descriptive Analysis of Means of Attribute ‘Originality’ Educational Qualification wise	163
4.4.1.8	A Table showing One Way Analysis of Variances ANOVA-Originality and Qualifications	165
4.4.1.9	A Table Showing Post Hoc Analysis – Tukey HSD Originality and Qualifications	166
4.4.1.10	Table showing Descriptive Analysis of Means of Attribute ‘Social Responsibility’ Educational Qualification wise	167
4.4.1.11	A Table showing One way Analysis of Variances ANOVA – Social Responsibility and Qualifications	169
4.4.1.12	A Table Showing Post Hoc Analysis – Tukey HSD Social Responsibility and Qualifications	170
4.4.1.13	Table showing Descriptive Analysis of Means of Attribute ‘Visionary’ Educational Qualification wise	171
4.4.1.14	A Table showing One Way Analysis of Variances ANOVA – Visionary and Qualifications	173
4.4.1.15	A Table Showing Post Hoc Analysis – Tukey HSD	174

	Visionary and Qualifications	
4.4.2.1	Table showing Descriptive Analysis of Means of Attribute 'Dynamic' Educational Qualification wise	175
4.4.2.2	A Table showing One Way Analysis of Variances ANOVA – Dynamic and Qualification	176
4.4.2.3	Table showing Descriptive Analysis of Means of Attribute 'Commitment' Educational Qualification wise	177
4.4.2.4	A Table showing One Way Analysis of Variances ANOVA – Qualification and Commitment	178
4.4.2.5	Table showing Descriptive Analysis of Means of Attribute 'Flexible' Educational Qualification wise	179
4.4.2.6	A Table showing One Way Analysis of Variances ANOVA – Qualification and Flexible	180
4.5.1	A Table showing Group Statistics of Mean – Business Desire and Attributes	181
4.5.2	A Table showing Independent Sample Test t-test for Equality of Means - Business Desire and Attributes	181
4.5.1.1	A Table showing Group Statistics of Mean – Dynamic and business desire	183
4.5.1.2	A Table showing Independent Sample Test t-test for Equality of Means - Dynamic and business desire	184
4.5.1.3	A Table showing Group Statistics of Mean – Emotionally stable and Business desire	184
4.5.1.4	A Table showing Independent Sample Test t-test for Equality of Means - Emotionally stable and Business desire	185
4.5.1.5	A Table showing Group Statistics of Mean – Originality and Business desire	186
4.5.1.6	A Table showing Independent Sample Test t-test for Equality of Means - Originality and Business desire	186
4.5.2.1	A Table showing Group Statistics of Mean – Commitment and Business Desire	187

4.5.2.2	A Table showing Independent Sample Test t-test for Equality of Means-	188
4.5.2.3	A Table showing Group Statistics of Mean – Proactive and Business Desire	188
4.5.2.4	A Table showing Independent Sample Test t-test for Equality of Means	189
4.5.2.5	A Table showing Group Statistics of Mean - Social Responsibility And business desire	190
4.5.2.6	A Table showing Independent Sample Test t-test for Equality of Means - Social Responsibility And business desire	190
4.5.2.7	A Table showing Group Statistics of Mean – Flexible and Flexibility and Business Desire	191
4.5.2.8	A Table showing Independent Sample Test t-test for Equality of Means – Flexible and Flexibility and Business Desire	191
4.5.2.9	A Table showing Group Statistics of Mean – Visionary and Business Desire	192
4.5.2.10	A Table showing Independent Sample Test t-test for Equality of Means - Visionary and Business Desire	193
4.6.1	Table showing Descriptive Analysis of Means of Attributes Family Background wise	194
4.6.2	A Table showing One Way Analysis of Variances ANOVA - Familial Entrepreneurial Background and Attributes	196
4.6.1.1	Table showing Descriptive Analysis of Means of Attribute ‘Dynamic’ Family Background wise	197
4.6.1.2	A Table showing One way Analysis of Variance ANOVA – Dynamic and Entrepreneurial Background	198
4.6.1.3	Table showing Descriptive Analysis of Means of Attribute ‘Emotionally stable’ Family Background wise	199
4.6.1.4	A Table showing One way Analysis of Variance	200

	ANOVA – Emotionally stable and Entrepreneurial Background	
4.6.1.5	Table showing Descriptive Analysis of Means of Attribute ‘Commitment’ Family Background wise	201
4.6.1.6	A Table showing One way Analysis of Variance ANOVA – Commitment and Entrepreneurial Background	202
4.6.1.7	Table showing Descriptive Analysis of Means of Attribute ‘Proactive’ Family Background wise	203
4.6.1.8	A Table showing One way Analysis of Variance ANOVA – Proactive and Entrepreneurial Background	204
4.6.1.9	Table showing Descriptive Analysis of Means of Attribute ‘Originality’ Family Background wise	205
4.6.1.10	A Table showing One way Analysis of Variance ANOVA – Originality and Entrepreneurial Background	206
4.6.1.11	Table showing Descriptive Analysis of Means of Attribute ‘Social Responsibility’ Family Background wise	207
4.6.1.12	A Table showing One way Analysis of Variance ANOVA – Social Responsibility and Entrepreneurial Background	208
4.6.1.13	Table showing Descriptive Analysis of Means of Attribute ‘Flexible’ Family Background wise	209
4.6.1.14	A Table showing One way Analysis of Variance ANOVA – Flexibility and Entrepreneurial background	210
4.6.1.15	Table showing Descriptive Analysis of Means of Attribute ‘Visionary’ Family Background wise	211
4.6.1.16	A Table showing One way Analysis of Variance ANOVA – Visionary and Entrepreneurial background	212
4.7.1	Table showing Descriptive Analysis of Means of Attributes of Entrepreneurs’ Social Status wise	213
4.7.2	A Table showing One Way Analysis of Variances ANOVA – Social status and Attributes	215

4.7.3	A Table showing Post Hoc Analysis - Tukey HSD - Social status and Attributes	216
4.7.1.1	Table showing Descriptive Analysis of Means of Attribute 'Emotionally Stable' of Entrepreneurs' Social Status wise	217
4.7.1.2	A Table showing One Way Analysis of Variances ANOVA – Emotionally stable and Social status	217
4.7.1.3	A Table showing Post Hoc Analysis - Tukey HSD - Emotionally stable and Social status	218
4.7.1.4	Table showing Descriptive Analysis of Means of Attribute 'Flexible' of Entrepreneurs' Social Status wise	219
4.7.1.5	A Table showing One Way Analysis of Variances ANOVA – Flexibility and Social Status	220
4.7.1.6	A Table showing Post Hoc Analysis - Tukey HSD- Flexibility and Social Status	221
4.7.1.7	Table showing Descriptive Analysis of Means of Attribute 'Visionary' of Entrepreneurs' Social Status wise	222
4.7.1.8	A Table showing One Way Analysis of Variances ANOVA - Visionary and Social Status	223
4.7.1.9	A Table showing Post Hoc Analysis - Tukey HSD - Visionary and Social Status	224
4.7.2.1	Table showing Descriptive Analysis of Means of Attribute 'Dynamic' of Entrepreneurs' Social Status wise	224
4.7.2.2	A Table showing One Way Analysis of Variances ANOVA – Dynamic and Social status	226
4.7.2.3	Table showing Descriptive Analysis of Means of Attribute 'Commitment' of Entrepreneurs' Social Status wise	226
4.7.2.4	A Table showing One Way Analysis of Variances ANOVA – Commitment and Social status	227
4.7.2.5	Table showing Descriptive Analysis of Means of Attribute 'Proactive' of Entrepreneurs' Social Status wise	228

4.7.2.6	A Table showing One Way Analysis of Variances ANOVA – Proactive and Social status	229
4.7.2.7	Table showing Descriptive Analysis of Means of Attribute ‘Originality’ of Entrepreneurs’ Social Status wise	230
4.7.2.8	A Table showing One Way Analysis of Variances ANOVA – Originality and Social status	231
4.7.2.9	Table showing Descriptive Analysis of Means of Attribute ‘Social Responsibility’ of Entrepreneurs’ Social Status wise	232
4.7.2.10	A Table showing One Way Analysis of Variances ANOVA- Social Responsibility and Social status	233
