ACKNOWLEDGEMENT

I owe my deepest gratitude towards my supervisor and teacher Prof. Padma Chatterjee, Department of Botany, University of Kalyani, for her supervision, advice and continuous guidance starting from the selection of the problem to the end of this research work. Her profound knowledge and vast experience provided the vision. Her constant encouragement and advice helped me for completion of the work. Her extreme support and understanding through my tough times are worthy of mention.

I express my respect and thanks to former and present Heads of my Department, Prof. Animesh Kumar Dutta, Dr. Shankar Narayan Sinha and Dr. Sudipta Roy, Department of Botany, University of Kalyani, for their cooperation during my research period.

I also express my respect and gratitude to Prof. Sujata Choudhuri, Department of Botany, University of Kalyani, for providing me the facility to use the laminar air flow of her laboratory.

I am sincerely thankful to all my teachers, faculty members of Department of Botany for teaching me, supporting me and guiding me during my student hood and research period. I pay deepest and heartiest respect to all those persons from whom I learnt something.
I specially thank Mr. Ajoy Ghosh for his continuous help in my work in a various way, specially related to various software operations.

I am especially thankful to Dr. Arghya Ghosh and all my labmates Dr. Tuhina Dutta, Dr. Nishikta Banerjee, Dr. Sucharita Dasgupta, Urbi Bhattacharya, Suraj Seikh, Saswata Ojha, Alokesh Roy for helping me in various ways and maintaining a healthy working environment in the laboratory.

I specially thank Dr. Supriya RoyMandal, Satadru Pramanik, Dipak Paul, Avishek Pal for being my constant support system in all my ups and downs. I also thank Mrinal Biswas, Nirmalya Ghosh, Hemanto Dutta. I am thankful to Tapoti Das, Dr. Dhrubo Das, Dr. Samayeeta Sarkar, Anindita Nan, Chiranjeeb Mandal, Dr. Kaneeka Sengupta, Dr. Saumen Saha, Sinchan Adhikari, Abdul Kader, Sauro Tapas Dey, Tamali Das and all my other junior research scholars and friends.

I thank all the staff members, lab attendents, casual staff, Naresh, Bikasda, Bijayda (gardener), Ranjan of this department for helping me in various ways.

Now it is the time to express my deepest gratitude and love towards the two most important persons of my life. I owe to my parents for my existence and no thanks are enough to show my deepest respect and gratitude towards them. Their endless efforts, supports, understanding, encouragement made me the person I am today. No word is enough to express my feelings.
I am also thankful to all my family members, my masi, mama, pisi, my cousin brothers, sisters and rest of my family members and family friends for their continuous support and encouragement.

NEELA DAS
