ACKNOWLEDGEMENTS

Words do have shortcoming of not being able to express the immense of my gratitude to the Almighty Allah for guiding me all the way in my life and for helping me accomplish this task. I would like to warmly acknowledge and express my deep sense of gratitude and indebtedness to my guide Prof. S. Pirzada, University of Kashmir, for his keen guidance, constant encouragement and prudent suggestions during the course of my study and preparation of the final manuscript of this thesis work.

I also take this opportunity to acknowledge the help and support of all the teaching and non-teaching members of the department.

It gives me great pleasure to convey my sincere thanks to all the research scholars in my department. I would also like to thank all my friends, associates and well-wishers for their motivation and support.

I also wish to acknowledge the support rendered by my family in the form of encouragement, personal support and for their prayers and concern along my way.

I would like to thank University Grants Commission (UGC), New Delhi, India for providing junior and senior research fellowship.

I would like to thank National Board of Higher Mathematics (NBHM), India for providing support for different ATM Schools.

I acknowledge University of Vienna, Austria for providing me support to participate in Enumerative and Algorithmic combinatorics summer school-2014 held at Research Institute of Symbolic Computations (RISC) Johannes Kepler University Hagenberg Linz, Austria from 18-22 August 2014.

Oct. 24, 2014
