LIST OF TABLES

Table 4.1  Average Monthly Rainfall
Table 4.2  Weighted Average Monthly Rainfall
Table 4.3  Statistical Parameters of Annual Rainfall Distribution
Table 4.4  Seasonal distribution of Rainfall
Table 4.5  Autocorrelation Co-efficient of different lags
Table 4.6  Average Monthly Temperature, Relative Humidity and Wind speed
Table 4.7  Potential & Actual Evapotranspiration and Surplus Rainwater
Table 4.8  Drought assessment in Central Part of Suvarnamukhi river Basin.
Table 5.1  Morphometric Parameters and their definitions
Table 5.2  Morphometry
Table 5.3  Results of the Morphometric Parameters
Table 5.4  Data for Hypsometric Analysis
Table 5.5  Symmetrical correlation matrix of Geomorphic parameters
Table 5.6  Principal Axis Matrix
Table 5.7  Characteristics of various groundwater controlling features and their weightages
Table 5.8  Number of polygons obtained during integration to obtain groundwater prospect zones
Table 5.9  Validation of Groundwater prospect zones with Groundwater yield
Table 6.1  Subsurface Geology
Table 6.2  Water level Conditions
Table 6.3(a)  Pre-monsoon long term water table trend of the sub-basins
Table 6.3(b)  Post-monsoon long term water table trend of the sub-basins
Table 6.4  Gross Groundwater Draft of sub-basins
Table 6.5  Recharge from other sources of sub-basins
Table 6.6  Recharge from rainfall of sub-basins
Table 6.7  Stage of Groundwater Development and Categorization
Table 7.1(a)  Hydrochemical data for groundwater samples in Pre-monsoon
Table 7.1(b)  Hydrochemical data for groundwater samples in Post-monsoon
Table 7.2  Statistical parameters of the chemical constituents
Table 7.3  Chemical analysis data of rocks
Table 7.4  Correlation Matrix of the Chemical constituents
Table 7.5  Eigen values, Rotated Matrix and Communality
Table 7.6  Geo-chemical Data of the Soil Samples
Table 7.7  Relative Weights and weightages assigned for determining WQI
Table 7.8  Water Quality Index values for the Groundwater Samples
Table 7.9  Irrigation water Quality
Table 8.1  Categorization and weights assigned to for identifying zones favorable for Artificial Recharge (AR)
Table 8.2  Polygons obtained during integration to obtain AR zones
Table 8.3  Validation of the artificial recharge zones with respect to groundwater yield
Table 8.4  Groundwater recharge by RIF method
Table 8.5  Categorization and weights assigned to different features for Vulnerability Mapping
Table 8.6  Number of polygons obtained during Vulnerability Mapping
Table 8.7  Map Validation of Aquifer Vulnerable Zones

**LIST OF MAPS**

Map 1.1  Location Map
Map 4.1  Thicssen Polygon Map
Map 4.2  Isohyetal Map
Map 5.1  Drainage Map
Map 5.2  Geological Map
Map 5.3  Landform Map
Map 5.4  Soil Map
Map 5.5  Slope Map
Map 5.6  Digital Elevation Model
Map 5.7  Hillshade Map
Map 5.8  Lineament Map
Map 5.9  Lineament Density Map
Map 5.10 Landuse/Landcover Map
Map 5.11 Drainage Density Map
Map 5.12 Groundwater Potential Zones Map
Map. 6.1 Soil Zone Thickness Map
Map. 6.2 Weathered Zone Thickness Map
Map. 6.3 Fractured Zone Thickness Map
Map. 6.4 Transmissivity Map
Map 6.5(a) Pre-monsoon depth to waterlevel (May 2008)
Map 6.5(b) Post-monsoon depth to waterlevel (October 2008)
Map 6.6(a) Pre-monsoon depth to waterlevel (Decadal Mean)
Map 6.6(b) Post-monsoon depth to waterlevel (Decadal Mean)
Map 6.7(a) Seasonal Waterlevel Fluctuation in 2008
Map 6.7(b)  Seasonal Waterlevel Fluctuation (Decadal Mean)
Map 6.8  Groundwater Flow Direction
Map 7.1  Spatial Distribution of Calcium
Map 7.2  Spatial Distribution of Magnesium
Map 7.3  Spatial Distribution of Sodium
Map 7.4  Spatial Distribution of Potassium
Map 7.5  Spatial Distribution of Carbonate
Map 7.6  Spatial Distribution of Bicarbonate
Map 7.7  Spatial Distribution of Sulphate
Map 7.8  Spatial Distribution of Chloride
Map 7.9  Spatial Distribution of Nitrate
Map 7.10  Spatial Distribution of Fluoride
Map 7.11  Spatial Distribution of TDS
Map 7.12  Spatial Distribution of EC
Map 7.13  Spatial Distribution of TH
Map 7.14  Spatial Distribution of pH
Map 7.15  Spatial Distribution of Eh
Map 7.16  Spatial Distribution of Iron
Map 7.17  Spatial Distribution of Copper
Map 7.18  Spatial Distribution of Zinc
Map 7.19  Spatial Distribution of Manganese
Map 7.20  Spatial Distribution of Silica
Map 7.21  Spatial Distribution of pH in Soil
Map 7.22  Spatial Distribution of EC in Soil
Map 7.23  Spatial Distribution of OC in Soil
Map 7.24  Spatial Distribution of available nitrogen in Soil
Map 7.25  Spatial Distribution of available phosphorus in Soil
Map 7.26  Spatial Distribution of available Potassium in Soil
Map 7.27  Spatial Distribution of available Zinc in Soil
Map 7.28  Spatial Distribution of available Copper in Soil
Map 7.29  Spatial Distribution of available Manganese in Soil
Map 7.30  Spatial Distribution of available Iron in Soil
Map 7.31  Spatial Distribution of WQI
(a: Pre-monsoon and b: Post-monsoon for maps 7.1 to 7.20 and map 7.31)

Map 8.1  Artificial Recharge Zones
Map 8.2  Artificial Recharge Structures (Site Specific)
Map 8.3  Recharge due to rainfall
Map 8.4  Aquifer Vulnerable Zones
