ACKNOWLEDGEMENTS

I wish to express my heart felt and deep debt of gratitude to my research supervisor Dr. K B Raja, Associate Professor, Department of Electronics and Communication Engineering for his invaluable guidance and discussion throughout my research work. He has been a constant source of inspiration and it would not have been possible but for his untirely effort in guiding me to complete this thesis. His patience to go through my work, gentle encouragement and his continuous guidance has inspired me a lot. His clarity of thought, incisive analysis and taste for perfection are qualities that are worth being emulated.

I remain grateful to Dr. K R Venugopal, Principal, University Visvesvaraya College of Engineering for his constant support, encouragement, and suggestions through out the course of my research work. I thank Prof. L M Patnaik, Professor, Indian Institute of Science for his encouragement and suggestions during the course of my research work.

I would like to express my sincere word of thanks to Dr. P Deepa Shenoy, Professor in Computer Science and Engineering and Dr. K Suresh Babu, Associate Professor in Electronics and Communication Engineering for their valuable support during the course of my research work. I am very much thankful to Dr. S H Manjula, Professor and Chairperson, and Dr. Triveni J,
Professor and former Chairperson, Department of Studies in Computer Science and Engineering, University Visvesvaraya College of Engineering, Bangalore for their valuable suggestions, encouragement and support during the course of research work.

I would like to thank Dr. D N Sujatha, Dr. Vibha Lakshmikantha, Dr. Shaila K, Dr. Anitha Kanavalli, Dr. Veena Bhat, Ramachandra A C, T Shivaparakash, Satheesh kumar H C, Sathish B, Satheesha N, Annapoorna, Poornima G, K Girish, and Nalini L, for their valuable support, suggestions and comments. I would like to thank Rangaswamy Y, Sindhu S, T D Mahalakshmi, Ganavi S P, Vishwanath, Vinod, Amith Singh, Puneeth Sridhar, Arun C, and Pavan K S, who have worked along with me during the period of my research work.

I would like to thank Dr. M. Channa Reddy, former Director, Vemana Institute of Technology, Bangalore, for his encouragement and suggestions. I would also express my sincere thanks to Dr. P. Giridhara Reddy, Principal, Vemana Institute of Technology, Bangalore, for his encouragement and support during the preparation of the thesis. I thank all my colleagues at Vemana Institute of Technology for their support during course of my research work.

I would like to thank Prof. Tieniu Tan and his colleagues, Centre for Biometrics and Security Research, National Laboratory of Pattern Recognition, Institute of Automation, Chinese Academy of Sciences,
Beijing, China for having used the CASIA-IrisV1.0 collected by the Chinese Academy of Sciences' Institute of Automation (CASIA) in the portions of the research in this thesis.

I thank Prof. Miguel A Ferrer and his team for granting me the licence to use GPDS signature corpus in the portions of the thesis.

I would like to express my gratitude to my parents Renuka murthy C P, Sowbhagya, C P Prakash, Pushpa, Mruthunjaya, Rathnamala, my wife Roopa, my brothers Praveen, Naveen, Abhilash, Amar, my children Sanjay and Sinchana, and all my friends and relatives for their support, encouragement, patience and much more. Finally, I would like to thank all my students from whom I have learnt a lot in the past one and half decades.

Prashanth C R
Research Scholar
