ACKNOWLEDGEMENTS

It gives me an immense pleasure and pride to express my deep sense of gratitude and respect for my teacher and guide Dr. S. Chandrasekhar, FNASc, FASc, Chief Scientist & Head, Natural Products Chemistry division, Indian Institute of Chemical Technology for his evergreen expertise and inspiring guidance throughout the period of my research career. I am indebted to him enlightening me on the finer skills of dealing with synthetic problems. I consider myself fortunate to be associated with him who gave a decisive turn, a significant boost to my career.

My sincere thanks to Dr. J. S. Yadav, FNA, FTWAS, Director, IICT for his constant encouragement, which enabled me in bringing this thesis to the present form. I pay rich tribute to Prof. B. KesavaRao, Head, Board of Studies, Prof. P.V.V Satyanarayana, Prof. B. SyamaSundar, Prof. Haribabu and other faculty of Department of chemistry, Acharya nagarjuna university, Guntur for giving opportunity of my Ph.D programme in the university.

I express my special thanks to Dr. J. MadhusudanaRao, Former Head, Organic Divison-I, for his constant support throughout the period. I take this opportunity to thank Dr. Ch. Raji Reddy, Dr. P. Srihari, Dr. Prathama, Dr. Saibal Das, Dr. D.K. Mohapatra, Dr. B. Jagadeesh and Dr. K. Venkatram Reddy for their help and encouragement during my Ph.D tenure.

My heartiest thanks to Mrs. Bharathi Chandrasekhar and Mr. Bhargava who showered family affection on me. Their constant support and encouragement all throughout of my Ph.D is gratefully acknowledged.

It is a great privilege for me to be associated with the great teachers in my life Prof. P.V.V Satyanarayana, Prof. Jaya Prakash (J.P) and Dr. S. Chandrasekhar for their constant encouragement and valuable suggestions.

I take this opportunity to thank all my senior colleagues, Dr. C. N Goud, Dr. Jaya prakash, Dr. N. R. K. Reddy, Dr. V. Jagadeeshwar, Dr. Nagendrababu, Dr. Shameem, Dr. Y. Srinivasarao, Dr. Shyam, Dr. G. Chandrashekar, Dr. KrishnamRaju, Dr. Saritha, Dr. Ch. Rambabu, Dr. G. Pavan, Dr. Ch. Iohithrao, Dr. Basu, Dr. Vijendar, Dr. Tiwari, Dr. Bibhuthi, Dr. Sunitha, Dr. Swamy, Dr. V. Rajender, Dr. Gangadhar,
Dr. Ravindar, Dr. Nagalaxmi, Dr. Harshavardhan, Dr. Padmavani, for their unreserved help and suggestions.

I thank all my colleagues, belonging to NPL, DOSL, DRL-III, Discovery Lab, FCL, BOL, Mass and NMR divisions of IICT for their help and support. I am thankful to Krishna Rao, Murali, Madhuri, Srilatha, Sharma, Rekha, Raju, Haribabu and Manjula for their excellent technical support.

At this moment of submission of my thesis, I invariably feel short of words to express my sincere thanks to my parents Ramabrahmam and Kamaladevi whose efforts have brought me to this stage. It gives me immense pleasure to express my special acknowledge the whole hearted silent support of my wife Swathirajesh, who has been rock solid when things are not going well.

It's the time to express my heartfelt thanks to my friends and roommates Siva Murru, Paradesi, Rambabu, Ramesh, Narayana murthy, Sridhar, Vijay kumar reddy and jagadeesh. It is impossible task to mention every individuals name and his/her contribution to my career at IICT. I take this opportunity to thank one and all, who have helped me directly or indirectly incompleting this job. The assistance rendered by NMR, Mass, X-ray other analytical divisions, administration and library is gratefully acknowledged.

Financial assistance from the University Grants Commission (UGC), New Delhi and IICT, Hyderabad in the form of fellowship is gratefully acknowledged.

Finally, I thank the Director, IICT for allowing me to submit this thesis.

Rajesh Gontla
