

List of Tables

Table No.	Title	Page No.
3.1	List of Ferns selected for antibacterial screening and their Ethnobotanical importance	53
3.2	Antibacterial activity of ethanol extracts of Ferns	66
3.3	Phytochemical contents of ethanolic extract of Ferns	73
3.4	Detailed antibacterial activity of plants showed greater potential against pathogenic strains of bacteria.....	77
4.1	Antibacterial activity of crude extract of <i>D. quercifolia</i>	97
4.2	Antibacterial activity of standard antibiotics towards MTCC strains and two clinical isolates.....	98
4.2 (a)	One Way ANOVA tables showing the activity of the various crude extracts with standard antibiotics towards various bacteria	99
4.3	Phytochemical evaluation of <i>D. quercifolia</i>	101
4.4	Antibacterial activity of Fractions from <i>D. quercifolia</i>	102
4.5	Antibacterial activity of the active compound towards pathogenic bacteria.	118
4.6	One Way ANOVA tables showing the activity of the compound with standard antibiotics.	119
4.7	Antibacterial activity of the compound against bacterial strains along with standard antibiotics	122
