

List of Tables

2.1	A comparison of teaching models by Merickel (1998)	35
2.2	The theoretical framework of model by Silverman (2000)	60
2.3	Relationship of instructional events to learning events	61
3.1	School-wise break-up of the sample	92
3.2	The names of industries selected for study	104
3.3	Experimental procedure adopted	117
4.1	Differences between learning in and outside institutions (Resnick, 1987)	172
4.2	Product-wise Classification of industries	205
4.3	Content areas in the HSS chemistry text book	207
4.4	Education potential of various industrial sectors	211
4.5	Structural analysis of industries selected for field studies	218
4.6	Structural analysis of Cement industries ..	223
4.7	Sub units included in the Unit plan	273
5.1.	Measures of Central Tendency, Range, Dispersion, Skewness and Kurtosis of the Posttest Scores of Achievement in Chemistry of Experimental (ATL) and Control (DI) Groups	308
5.2	Mean, Standard Deviation, Standard Errors and Ranges of Mpop and SDpop of the Posttest Scores in Achievement in Chemistry of Experimental (ATL) and Control (DI) Groups	310
5.3.	Statistical Measures of the Achievement Scores of Students in the Experimental Group	312
5.4	Results of the Summary of Analysis of Variance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group	313
5.5	Results of the Summary of Analysis of Covariance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group	314
5.6	Results of the Test of Significance of Difference Between the Adjusted Means for the Posttest Scores in the Experimental (ATL) Group and the Control (DI) Group	315

5.7.	Results of the Summary of Analysis of Variance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group (Knowledge level).	316
5.8	Results of the Summary of Analysis of Covariance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group (Knowledge level)	317
5.9	Results of the Test of Significance of Difference between the Adjusted Means for the Posttest Scores in the Experimental (ATL) Group and the Control (DI) Group (Knowledge level)	318
5.10.	Results of the Summary of Analysis of Variance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group (Understanding level)	319
5.11	Results of the Summary of Analysis of Covariance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group (Understanding level).	320
5.12	Results of the Test of Significance of Difference between the Adjusted Means for the Posttest Scores in the Experimental (ATL) Group and the Control (DI) Group (Understanding level)	321
5.13	Results of the Summary of Analysis of Variance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group (Application level).	322
5.14	Results of the Summary of Analysis of Covariance of the Pretest and Posttest Scores of the Experimental (ATL) Group and the Control (DI) Group (Application level).	323
5.15	Results of the Test of Significance of Difference between the Adjusted Means for the Posttest Scores in the Experimental (ATL) Group and the Control (DI) Group (Application level)	324
5.16	Results of the Summary of Analysis of Variance of the Pretest and Posttest Scores of the Boys in the Experimental (ATL) Group and the Control (DI) Group	326
5.17	Results of the Summary of Analysis of Covariance of the Pretest and Posttest Scores of Boys of the Experimental (ATL) Group and the Control (DI) Group	327
5.18	Results of the Test of Significance of Difference between the Adjusted Means for the Posttest Scores of Boys in the Experimental (ATL) Group and the Control (DI) Group	328

5.19	Results of the summary of Analysis of Variance of the Pretest and Posttest Scores of the Girls in the Experimental (ATL) Group and the Control (DI) Group.	329
5.20	Results of the Summary of Analysis of Covariance of the Pretest and Posttest Scores of the Girls in the Experimental (ATL) Group and the Control (DI) Group	330
5.21	Results of the Test of Significance of Difference between the Adjusted Means for the Posttest Scores of Girls in the Experimental (ATL) Group and the Control (DI) Group	331
5.22	Data and Results of Test of Significance of the Pretest and Posttest Mean Achievement Scores of pupils in the ATL Group	333
5.23	Data and Result of Test of Significance of the Pretest and Posttest Mean Achievement Scores of Pupils in the ATL Group	334
5.24	Consolidated Scores and Ratings of Performance Skills and Reports of ATL Group of Pupils	337
5.25	Consolidated Form of Ratings of Social Skills of ATL Group of Pupils	339
