ACKNOWLEDGEMENT

I sincerely take an opportunity to acknowledge gratitude to all the people without whom this thesis would not have been possible.

Firstly, I express my sincere gratitude to my guide, Dr J.G Ambekar, Professor of Biochemistry and Registrar, BLDE University’s Shri B.M.Patil Medical College, Hospital & Research Centre, Vijaypur, for his masterly directions, constant support and eminent guidance, at every stage of this study.

I am sincerely indebted to my teacher Dr R.T Kashinath, Professor and Head of the Department of Biochemistry, Subbaiah Institute of Medical Sciences, Shimoga, for his support and invaluable suggestions during the planning and development of this research work. He has placed a full faith and undoubted trust in me which helped me a lot in carrying out my research work successfully. More than a teacher he was my guardian.

My Sincere thanks to Professor Kusal K Das, Dept of Physiology, BLDE University’s Shri B.M.Patil Medical College, Hospital & Research Centre, Vijaypur, for his great ideas, untiring guidance, affectionate & constant encouragement to complete this research work.

I owe my most sincere gratitude to Dr M. S. Biradar, Principal, BLDE University’s Shri B.M.Patil Medical College, Hospital & Research Centre, for the help and support.

I would like to express my very great appreciation to the Vice-principal, Shri B.M.Patil Medical College, Hospital & Research Centre and Chairman of Doctoral committee, BLDE University Dr Tejashwini Vallabha, for her support.

I would like to express my sincere gratitude to Prof Dr Basavaraj Devarnadagi, Head of the Department of Biochemistry, Dr Nilima Dongre, Dr Baswaraj Aski, Dr Sanjay Walvekar for their help, support and encouragement during this study.
I would like to express deepest gratitude to Dr Satish G Patil, Dr Chaitanya T.A.K, Dr Vickram, Dr Veena G Raiker, Dr Vijay, Dr Vijaykumar M Pujari, Dr Suresh Babu Sayana, Ms Chitralekha.

I wish to acknowledge the help provided by all my colleagues of Department of Biochemistry. I extend my thanks to all the non-teaching staff of Department of Biochemistry for assistance during my thesis.

Last but not least, I would like to extend my warm thanks to my wife Swapna and daughter Sarayu Sree, without their support and help; I could not dedicate to research and it would have been extremely difficult for me to accomplish this thesis.
