LIST OF TABLES

CHAPTER 2

Table 2.1  Plant derived drugs with their ethno medicinal uses and its respective sources

Table 2.2  List of NMR experiments applied for natural products structural elucidation

CHAPTER 3

Table 3.1  Phytochemical analysis of successive solvent extracts of I.caerulea.

Table 3.2  Extraction yield, total phenolic content and flavonoid content of different solvent extracts of I. caerulea

Table 3.3  Half maximal inhibitory concentration values of DPPH, Hydroxyl (OH) and Superoxide anion (SO) radical scavenging activities of different solvent leaf extracts of I. caerulea.

Table 3.4  Reducing capacity assessment of different solvent leaf extracts of I. caerulea.

CHAPTER 4

Table 4.1  Effect of MIL and silymarin on serum biochemical parameters in CCl₄ intoxicated rats.

Table 4.2  Effect of MIL and silymarin on liver function test in rats

Table 4.3  Effect of MIL on lipid profile in rats

Table 4.4  Effect of MIL on TBARS and Nitrite in rats
CHAPTER 5

Table 5.1 Separation of active constituents from *I. caerulea* by Column chromatography

Table 5.2 Purification of active constituents from *I. caerulea* by thin layer chromatography

Table 5.3 List of ligand molecules retrieved from PubChem compound database

Table 5.4 Summarization of the Pharmacodynamics and Kinetic properties of the ligands

Table 5.5 Details of Molecular docking score and H-bond interactions of isolated bioactive compounds and standard drug with TNF-α (PDB ID: 2AZ5)

Table 5.6 Details of Molecular docking score and H-bond interactions of isolated bioactive compounds and standard drug with Cyclooxygenase-2 (COX-2) (PDB ID: 3LN1)
