ACKNOWLEDGEMENT

Human Society needs and expects support from other persons to sustain in the society. A person needs support and guidance from other to develop in life. Any noble task can be completed successfully only by others’ inspiration and encouragement.

For the complex work like research support by the friends, guidance by the experts, blessing by the elders and the grace of God is needed. At first I heartily bow to my Kuldevi Chamunda Ma and Surapura of our family and thank them for this achievement. I whole heartedly bow to my Rev. father Laljibhai, my Mother Vijyaben and my loving younger brother Ashok. Who always cherished the dream to see me a doctorate person. I have no words to for me express how grateful I am to them for all of the sacrifices that they have made to my progress.

I whole heartedly thank Dr. Bhanubhai D. Dhila my Ph.D guide for providing the guidance and inspiration at every stage of the research work. I also thank Dr. Anant. M. Vasani who provided me valuable guidance in my research work at every stage. I also thank of all family members of Dr. Anant M. Vasani who become quite intimate to me.

I thank LT. Prof. Yogendrabhai Desai, prof. Madhubhai Kothari and Prof. Ram for helping and guiding me in selecting the back ground of this research work.

I whole heartedly thank Principals, teachers and students of various schools and college of Rajkot city. Who have enthusiastically responded by filling up the questionnaires I thank them all.
I thank Piyushbhai Gondhia for providing internet and technical assistance as well as computer data entry and type setting of my Thesis.

I also thank the well wishers and the staff members of Sister Nivedita School Rajkot, for their co-operation and inspiration. I affectionately remember my brother Ashok, who has adjusted much for my reading writing and every step of my research.

Once again my thanks to everyone who has contributed directly or indirectly in my work.
