ACKNOWLEDGEMENT

“Scientific research, from its initial pursual as a leisure time hobby, has metamorphosed into a cutting edge competitive endeavour. In my view, perspicacious mind, farsighted vision and long standing experience are some of the key components required for the present day scientific venture.”

I would like to recognize the unseen blessings of Supreme Lord Shri Narsanga Veer and Bahucha Mataji who have always been a hidden source of inspiration and guidance for me. They have always lend helping hands to pull me up whenever I have fallen down.

With a feeling of profound pleasure I can say that the credit of this work goes to giant personality in himself, who has brought about “better me” in myself, my guide Dr. P. K. Shah, whose scholarly insight, valuable guidance and fatherly affection has molded and enlightened my tiny work into success that in turn is presented here.

I am fortunate enough to have shelter of Dr. G. N. Tivari, Professor, Indian Institute of Technology, Delhi for nourishment of knowledge confined upon me. His observations and comments helped me to establish the overall direction of the research and to move forward with investigation in depth.

I cannot find words to express my gratitude to Dr. Axaykumar J Mehta (Director, GPERI) for providing guidance and motivation during the doctoral study and give a chance to grow without any constraints.

I would like to express my appreciation to Mr. Kaushikbhai Chaudhari, M/s Chaudhari Designers and Fabricators for his advice on the fabrication of Solar Still and Mr. Ashishbhai Patel, M/s Sigma Controls Ltd. for providing Data Logger for experiments.

On a personal note, I would like to thank Dr. Deepak Gadhia, Muni Seva Ashram, Dr. Nilesh M Bhatt, Director Gandhinagar Institute of Technology, Dr. S.A. Channiwala, Professor SVNIT Surat, Dr. K. Srithar, Professor Thiagarjar College of Engineering and Dr. Bharat Ramani, Professor Marwadi group of Institutes for their incredible support and being a fuel for all scientific communication during research work.

I am very thankful to Dr. Manoj Soni, Asst Professor BITS Pilani, Dr. A. O. Kabeel, Professor Tanta University, Egypt, Dr. A. S. Abdullah, Professor Tanta University, Egypt and Dr. Jianyin Xiong, Professor, Beijing Institute of Technology, China for their valuable suggestions in research work on solar still.

I am really thankful to Prof. Hitesh Patel, Assistant Professor GPERI for helping me to draw solid works drawings.

My gratitude to all GPERI family members who have been involved directly or indirectly with the successful completion of this dissertation.

- Panchal Hitesh N
