ACKNOWLEDGEMENTS

I express my deep sense of gratitude to my research guide Dr. V. N. Sivasankara Pillai, Professor and Director, School of Environmental Studies, for the patience, support and valuable guidance without which this work would not have been possible.

I am very much obliged to the office bearers of Kerala Water Authority, who permitted me to carry out the work and provided infrastructural facility for carrying out the work at the treatment plant. I am especially thankful to K. Govindankutty Nair, former Technical Member, KWA for granting permission to carry out this work. I owe special thanks to Asst. Executive Engineer, Mr. S. Ratheesh, Asst. Engineers Mr. Gokul Sethuraj, Mr. K. L. Pauly, Mr. K. Ramachandran for their keen interest on this work. I sincerely thank Mr. Govindan kutty and Mr. Susselan, overseers, Section office KWA, Peechi for providing information about the treatment plant and operational details.

The operators of the Peechi Water treatment Plant, Mr. Jose, Mr. Chandran, Mr. Mani, Mr. Balan, Mr. Sasidharan, Mr. Ramachandran, and Mr. George deserve special thanks for their help and hospitality during my tenure of work in the inhospitable location. They have been specially educative and eager to see the outcome of each experiment.

I am very much obliged to Professor Dr. A. Mohandas, Dean of the Faculty of Environmental Studies, and former Director, School of Environmental Studies. I express my sincere gratitude to my teachers Dr. I. S. Bright Singh, Dr. Ammini Joseph, Dr. Suguna Yesodharan, Dr. M. V.
Harindranatahan Nair, Dr. Rajathy Sivalingam, and Dr. V. Sivanandan Achari for their timely help and advice.

I am thankful to Dr. B. Sathyanathan, Dr. P. Rajalakshmi Amma and Mrs. Daisy K. O for their valuable help during the period of this study.

I pay my thanks to the administrative staff of School of Environmental Studies for all help provided by them during my study.

I am indebted to my colleagues Mr. Rajesh Babu V. G., Mr. Ravi Divakaran, Mr. Ramesh R., Mr. Leju S. Valsan, Dr. Sunilkumar G., Mr. Jayaprakash N.S., Mr. Somanath Pai, Mrs. Suja P. Devipriya, Mrs. Rekha P. R., Mrs. Jitha. G, Mrs. Shaganaz Banu Miss Manjusha M., Miss Preetha R., Miss. Manju N.J., Miss Anitha Thankachan and Miss. Subhitha Prabhakaran O. P. for their timely help.

This work would not have been possible without the help of my friend and colleague Mr. Balachandran M. who helped a lot in each stage of this work. I owe special thanks to Mr. Anaz Abdul Aziz, who constantly encouraged and provided necessary help in times of need.

It would be ingratitude on my part if I didn't mention Dr. Anandaraj. N, Dr. Reji Srinivas, Mr. Girish Gopinath, Mr. Ajaykumar P. and Mr. Baiju. K., Department of Marine Geology and Geophysics, CUSAT who helped me during the different stages of thesis preparation.

I thank Mr. Jithesh of School of Engineering, CUSAT, for the help rendered in drawing the engineering diagrams for this work without which this would have been incomplete.
I express my sincere gratitude to Dr. Ravisankar M., Reader, Department of Marine Geology and Marine Geophysics, School of Marine Sciences, CUSAT, Er. Gopi Menon, and Er. Muralidharan, Department of Instrumentation, CUSAT, for the help provided for the fabrication and calibration of settling column and adsorption set up.

I express my sincere gratitude to Dr. C. K. Soman, Scientist, Kerala Forest Research Institute, Peechi and Mr. Binod V. Project Fellow, Kerala Forest Research Institute, Deputy Director Hydrology division, Kerala Engineering Research Institute, Peechi for helping me to acquire necessary meteorological data.

Lastly I thank my parents and family members for their prayers, encouragement and support during the study period this work.
