ACKNOWLEDGEMENT

This work was completed with the support and encouragement of numerous people including my well wishers, my dear friends and colleagues. It is a pleasure to express my thanks to all those who have contributed in various ways to the success of this study. First, I would like to express my sincerest and deepest gratitude to my parents, late Sri. Kadappa, S. and late Smt. Gopamma. I do not have enough words to express my appreciation for their support, unlimited love and faith.

It gives me great pleasure to express my profound indebtedness and heartfelt thanks to my guide Prof. Prakash, H.S., Department of studies in Biotechnology, University of Mysore, Manasagangotri, Mysore. His meticulous guidance, constant encouragement and considerable support during the experimental period, and during the preparation of this thesis is highly appreciated. He has been supportive not just for this PhD research but my career as a whole.

I am very grateful to Sri. Sadananda, K.B., Mysore, for his continuous support, careful reviewing of the manuscript and most valuable comments. My words of gratitude cannot be a substitute for the help and suggestions given by Prof. Shivamurthy, G.R., (Mysore), Prof. K. Gopalakrishnan Bhat (Udupi) and Prof. Radhakrishna Rao (Manipal). Thanks are also due to Prof. Shekar Shetty, H., Department of studies in Biotechnology, University of Mysore, Manasagangotri, Mysore and Prof. Raveesha, K.A., Department of studies in Botany, University of Mysore, Manasagangotri, Mysore, for their valuable advice. I would like to express special thanks to Dr. Ramachandra Kini, Associate Professor, Department of studies in Biotechnology, University of Mysore, Manasagangotri, Mysore, for his valuable suggestions.

I would like to thank Prof. Niranjana, S.R., Prof. Bharathi P. Salimath, Dr. Aparna, H.S., Dr. Umesh, S., Dr. Geetha, N.P. and Dr. Shailasree Sekar, Department of studies in Biotechnology, University of Mysore, Manasagangotri, Mysore, for their valuable suggestions and continuous support throughout my research work. Thanks are also due to Prof. Sudharshan, Prof. Leelavathi, S., Prof. Shobha Jagannath, Prof. Janardhan, Dr. Amruthesh, K.N., Dr. Nalini, M.S. and Dr. Rajikumar, G., Department of studies in Botany, University of Mysore, Manasagangotri, Mysore, for their support.
