Acknowledgement

Though only my name appears on the cover of the thesis, numerous individuals contributed to it. I owe my gratitude to all those people who have made this thesis possible and only because of them my research experience has been one that I will cherish forever.

Fast and foremost, I would like to thank the University Grants Commission, New Delhi, India for financial assistance.

My deepest gratitude is to my Supervisor, Prof. Animesh Kumar Datta and his family. I have been amazingly fortunate to have a Research Guide who gave me the freedom to explore on my own. He provided me the guidance to recover when my steps faltered. Sir taught me how to question thoughts and express ideas. His patience, love and support helped me to overcome many crisis situations and to complete the thesis. I am grateful to him for enforcing strict validations for each research result and thus teaching me how to do research. I will try my best to be an ideal teacher, guide and human being like Prof. Datta. I will do my best in never forgetting what a great fortune I had in just being with him during my tenure of student life and research which provided me the lesson of responsibility, dedication, honesty and above all to be good human being worthy to nation and society.

Most importantly none of this would have been possible without the love and patience of my Parents. My parents and other family members has been a constant source of love, concern, support and strength for all these years. I would like to express my heart-felt gratitude to them. My parents have aided and encouraged me throughout my endeavor in Ph.D. research.

Special thanks goes to Shri Ranjan Kirtania (our Lab. assistant), the days and nights we were working together and having funs. His assistance both in Lab. and in field works is invaluable to me. Without him this work could not have been completed. No word to thank him.

In particular, I am grateful to Prof. Gour Gopal Maiti and Dr. Sudha Gupta for their encouragement, guidance and love. I will never forget their spontaneous contribution and golden cooperation.

I am grateful to the University of Kalyani as well as Department of Botany for providing me all necessary facilities to carry out my research work. My sincere thanks go to the Heads of the Department (Prof. Animesh K. Datta, Dr. S. N. Sinha and Dr. S. Roy) for their kind help during my tenure of research work.

I am also thankful to my Lab. seniors Dr. Sanjay Poddar, Dr. Subhendu Kumar Rang, Dr. Koushik Sengupta, Dr. Aditi Saha, Dr. Sonali Sengupta, Dr. Rita Paul, Dr. Anindita Mukherjee, Dr. Moumita Mukherjee, Dr. Mohsina Iqbal, Dr. Sandipan Chowdhury, Dr. Susmita Maity, Dr. Ananya Das and Dr. Babita Saha for their valuable suggestions.
Acknowledgement

I thank my fellow Lab. mates: Sudip Das, Suchetana Mukherjee, Dr. Benoy K. Ghosh, Priyanka Kumari Dubey, Sandip Halder and Aveek Samanta for stimulating discussions for the days we were working together before deadlines and also for all the fun we had in the last few years. Also I thank my friends (Ayan Sarkar, Moumita Dey, Asish Halder, Atish K. Laha, Rajarshi Biswas and many others) as well as my very junior Lab. mates Debadrito Das and Gouranga Kundu of University of Kalyani for all necessary help. I also extend my sincere thank to Chandranath Bhunia (Department of Biotechnology, Haldia institute of Technology) for his support during my research work. I would also like to thank all my mess mates from Berhampore for their continuous encouragement.

Furthermore, I would also like to acknowledge with much appreciation the crucial role of Dr. Siraj Datta, Head, Department of Biotechnology, Haldia Institute of Technology, who gave the permission to use all required equipments and the necessary chemicals regarding molecular analyses for completion the work.

I am also grateful to Mr. Swapan Choudhury, Geological Survey of India, Kolkata, for providing me invaluable assistance during SEM analysis of pollen grains.

Finally, I would like to express my gratitude to the all Faculty Members, Staff, Research Scholars of the Department of Botany, University of Kalyani for their continuous support and encouragement throughout my research work.
