ACKNOWLEDGEMENT

At the occasion of submission of this thesis it is my sublime privilege to express my deepest sense of gratitude and veneration for my supervisor Dr. M.R. Singh, Reader and Head (Rtd.), Department of Genetics and Plant Breeding, P.G. College Ghazipur for his meticulous guidance, indelible inspiration and constant encouragement and constructive criticism throughout the course of this investigation and preparation of the manuscript.

I am indebted to Dr. G. Singh, Head, Department of Genetics and Plant Breeding, Post Graduate College, Ghazipur for his encouragement and constructive criticism throughout the course of his investigation and preparation of the manuscript.

My sincere thanks are due to Dr. A. N. Singh, Principal, P.G. College Ghaziipur, Ghazipur for providing all necessary facilities of research and his valuable suggestion.

I am also thankful to Dr. J.R. Yadav, Department of Vegetable Science, C.S.A. University of Agriculture and Technology Kanpur for providing okra seeds and technical programmes and to Dr. M. K. Mishra and Dr. U. P. Pandey for their keen interest, prudent and valuable suggestion and guidance during the preparation of this manuscript. I also wish to extend my thanks to Dr. B. Singh, Principal Scientist & Dr. S.K. Sanwal, Senior Scientist, IVRI, Varanasi for making the materials available and analysis of data.

My thanks are due to Dr. Kamlesh Ram and Mr. Vijay Kumar of Dept. of Genetics & Plant Breeding, P.G. College Ghazipur for their cooperation in collection of data.

Lastly my thanks are also due to H. N. Pandey, Avon Computers, Gora Bazar, Ghazipur for composition of the text being presented here.

Feeling for my elder brother Shri Subedar Yadav and bhabhi Smt. Manorama Yadav whose love affection and encouragement let me forget all my pains and kept me going in whenever I was stressful.
