At the outset, I thank God for providing me the chance, will power, knowledge and all facilities required for the completion of this research work.

I express my profound gratitude to Professor (Dr.) M. Bhasi, Professor, School of Management Studies, Cochin University of Science and Technology (CUSAT), for his keen and untiring interest, valuable suggestions, active participation and personal attention, in the pursuit of the work, as supervising guide, and also for being a source of constant inspiration and encouragement during the course of this research work. I express my heartfelt thanks to him and his family members, for all blessings and encouragement showed to me for completing this work.

I am deeply indebted to Dr. G. Madhu, Professor, Division of Safety and Fire Engineering, School of Engineering, Cochin University of Science and Technology for the guidance and valuable suggestions and active participation in the pursuit of the work, as co-guide in this research work and for extending to me the services in the Department.

I express my sincere gratitude to Prof (Dr) V. Madhusudanan Pillai, Department of Mechanical Engineering NIT, Calicut, for helping me to learn SCRPG software for my research work. I express my sincere thanks to Dr. K. Vijayakumar, Principal, Government Engineering College, Thrissur for all the support in connection with my Ph.D work. I am thankful to former Heads of the Department of Mechanical Engineering, Prof K. Varughese Job and Prof. T. Krishnakumar and present Head of the Department of Mechanical Engineering Prof C. P. Sunilkumar of Government Engineering College, Thrissur for their valuable suggestions. I am indebted to my colleagues, Prof. P. P. Sivan, Department of Civil Engineering, and Prof. B. Manjithkumar, Department of Production engineering, for helping me to perform my official duties due to which I could spend enough time for my research. I specially thank my colleagues, Prof (Dr) Rajesh Vanjipura, Prof (Dr) K. K. Manesh, Department of Mechanical Engineering, Government Engineering College, Thrissur for helping me during literature survey. Acknowledgement is made for the
help given by my colleagues, Prof (Dr) P.A. Solomon, Department of Chemical Engineering, to learn ‘Excel solver’ and Prof. P. Rajesh, Department of Economics, for helping in learning ‘SPSS’.

I am thankful to Prof (Dr) K. C. James, Department of Statistics, Cochin University of Science and Technology, for clearing my doubts in the area of statistics. I express my deep sense of gratitude to the faculty members of the School of Engineering, CUSAT, office staff, and employees in the main library, who have helped me in several ways to complete this work.

I express my sincere thanks to the anonymous reviewers of my papers based on work presented in this thesis for giving valuable suggestions which helped me improve. Thanks are due to Prof. K. Sunilkumar, Prof (Dr) N. R. Rajesh, Department of Mechanical Engineering, College of Engineering, Trivandrum, Prof (Dr) Biju Augustine, R.I.T, Kottayam and Prof (Dr) Vinod Kumar Jacob, M.A. College of Engineering Kothamangalam for their inspiration and motivation, as and when required. I extend thanks to Prof N. K. Vijayan for correcting the English of this Thesis. I also thank Mr. Shyam of Indu Photos for the DTP and layout works of this thesis.

I remember the support and encouragement by the members of my family, especially my wife Rajani and children, Athira and Ashika and my parents for all their help throughout this work and throughout my career.

Lastly, but not least I thank all my friends and relatives for all the help they extended to complete this work within the specified time.
