Acknowledgement

“Praise be to Allah, creator of the universe, the most gracious, most merciful, who bestowed upon me the courage to accomplish this work”

Knowledge gained gives new dimensions to the life of a gainer or the one who imparts. It is very difficult for a researcher to complete his research work without the cooperation of others and I am no exception. Among those who first kindled my interest in the present endeavor is my supervisor Dr. M. A. K. Baig, Lecturer, Department of Statistics, University of Kashmir, Srinagar whose inspiring guidance and untiring encouragement helped me to complete this work. His affectionate attitude, genuine concern and scholarly discourses always kept me lively to accomplish this work. I consider to express my feelings and regards for him in words will be extremely formal.

I am deeply grateful to Prof. Aquil Ahmad, Head, Department of Statistics, University of Kashmir, Srinagar for encouragement and providing necessary facilities in the department. I wish to express my grateful thanks to my teachers Dr. Anwar Hassan and Dr. Tariq Rashid Jan for their help.

I am also thankful to Prof. I. J. TANEJA, Departamento de Matematica, Universidade Federal de Santa Catarina, Florianopolis, Brazil, S. S. Dragomir, Victoria University of Technology, Australia, Dr. A.B. Khan, SKUAST, Jammu, Prof. W. Pedrycz, Editor in chief, Information Sciences (An International Journal) for sending relevant and valuable material regarding my topic.

I am thankful to staff members of Allama Iqbal Library and browsing section, University of Kashmir, Srinagar for their kind support.

I am duty bound to pay my thanks to my parents and to my brother Bilal Ahmad for their inspiring encouragement and unflagging optimism which have always been a dynamic force behind my achievements in all walks of life.

It would be unfair if I fail to thank my friends who extended their cooperation whenever I needed, specially Mr. Ajaz Ahmad (Ph.D scholar Physics), Mr. Mumtaz Ahmad (Ph. D scholar Archeology), Irfan Ahmad (Ph.D scholar Botony), Ab. Roaf (Ph.D scholar History), Mr. Ibrahim
(Ph.D scholar Mathematics), Mr. Nisar Ahmad (Ph.D scholar Mathematics), Mr. Javid Gani (Ph.D Scholar Statistics).

Cordial thanks are due to my crony Mahnaz Shafi for her inspirations. She indeed was a continuous source of encouragement for my writing.

I owe the responsibility for any errors, omissions, typographical mistakes and other things alike that have incorporated in this manuscript.

Rayees Ahmad Dar
