ACKNOWLEDGMENT

I am sincerely indebted to Prof. V.V. Modi for the valuable guidance and inspiration throughout the progress of this investigation.

It gives me pleasure to thank Dr. A.K. Mattoo and Dr. H.S. Chhatpar for their guidance, encouragement and valuable help rendered during the preparation and compilation of this thesis. I will be failing in my duty if I do not thank Mr. A.K. Didolkar who was at my side during some of the experiments.

The financial support by University Grants Commission, New Delhi, through the award of Junior Research Scholarship during the early stage of this investigation is duly acknowledged. The later part of it was supported by a Research Grant, Am-PL-480/EG-In-506, from the agricultural research service of the U.S. Department of agriculture.
