

ACKNOWLEDGEMENT

First of all, I would like to express my genuine gratitude to my supervisor, Dr. Vijay Kumar, for his guidance, encouragement and his trust in me throughout the years. Without his vision, deep insight and advice, this work would not have been possible. His extensive knowledge, strong analytical skill and an endless source of ideas are truly treasures to me. In spite of his busy schedule, he always had time for me. I thank him for the countless hours he has spent with me, discussing everything from research to career choices, reading my papers and critiquing my talks. He is more than an adviser and a teacher but a role model and a friend. Working with him is proven to be an enjoyable and rewarding experience. He is the one who showed me the path from the beginning to the end.

I would also like to thank Prof. (Dr.) Sandip Goel & his team for providing valuable advice on my research. Special thank are given to Prof. (Dr.) Manpreet Singh for providing me computing facilities in my early years at MMU.

I am really thankful to my all my lab mates and friends. They made my life beautiful and helped me every-time when I was in some trouble. I would like to thank administrative and technical staff members of the Department who have been kind enough to help me in their respective roles.

I would be no where in life if I had not been a part of the wonderful family one can imagine. Finally, I thank my brothers Mr. Parveen Vaid and Mr. Neeraj Vaid, my loving nephew Mr. Chetan and Mr. Ketan, especially my niece Muskan, for their never ending love.

Finally, I thanks to my parents Mr. Jaswnat Rai and Mrs. Sweety Vaid for their love, sacrifice and support.

Rohit Vaid
