Jamnager district had attracted very little attention from archaeologists, till the present investigation was undertaken. The work carried out by previous scholars, though limited, revealed various facets of human activity and exposed the possibilities of many significant discoveries. The present work is based on the study of material relics found during extensive field explorations of the district. The study revealed many new facts throwing fresh light on archaeological potentialities and a useful chronological sequence is built up. The material presented here may also be useful to other specialists, who will work in the future.

It is a matter of pleasure to preface this thesis with statement acknowledging those individuals and institutions which have played different but none the less significant role during the field work. There have been many people in different places that I cannot possibly mention them all in this short space. However, I begin with Prof. N.V. Mehta of M.S. University, who is my teacher and guru. I owe him more than I can express. It was on his suggestion that I took up this topic. He was very generous in guiding me at every stage of the work, it would not have been possible for me to complete this work without his able guidance.

I am indebted to Drs. K.T.M. Hegde, S.N. Chowda-y, S. Kuruvensi, V.V. Parakh, K.N. Momin, V.H. Sonawane, V.H. Hirachandi, Hbali of the Department of Archaeology, M.S. University, Baroda, for many hours discussion and their valuable comments on my research.
Acknowledgements are also due to Dr. (Mrs) D.R. Shah for identifying the bones and Shri J.M. Kenoyer, Research scholar from University of California, Berkeley, U.S.A., for studying with me the shell industry of Nageshwar.

I am thankful to Dr. S.K. Bhowmik, Director, Museum and Picture Gallery, Baroda, Gujarat State, for his keen interest in this work and for allowing me to study and photograph the sculptures at Lakhota Museum, Jamnagar.

I am thankful to Dr. S.B. Deo, Dr. U.P. Shah, Dr. V.S. Rathanker, Shri B.K. Thapar, Shri J.P. Joshi, Shri S.M. Paney for showing constant interest in this work and for their valuable discussions and comments, whenever I had an opportunity of meeting them in the department.

I also took the opportunity to record my thanks to the authorities of Archaeological Survey of India for granting me fellowship and Indian Council of Historic Research for the award of Rs.3000/- as a contingency grant. Without their financial assistance it would not have been possible to complete this work.

I am highly obliged to Sarvashri R.J. Khatri, N.M. Khatri, D.R. Panchal, Arun Pawar and Kirit Patel of the Department of Archaeology, M.S. University, Baroda for their valuable assistance in preparing the drawings and photographs.

I wish to record my feeling of gratitude to Sarvashri C.D. Patel's Add, my father-in-law and brother-in-law respectively, for their eagerness to see this work complete and for their kindness in providing loans during the course of my research.
Acknowledgements are incomplete unless I thank my wife — 'Alka, who remained a constant companion and source of inspiration.

Last but not the least I thank my sister, Dr. Pratna Thassu and brother-in-law, Shri B.L. Thassu for their keen support during the course of whole work.
