

LIST OF TABLES

	Page No.
1.1 Modulation and coding schemes	12
1.2 Classification of Scheduling Services	28
1.3 Comparisons of transparent and non-transparent relay mode	34
2.1 Network simulators and emulators	56
2.2 Comparative study of different Simulation tools	66
2.3 Simulation parameters	68
3.1 Simulation Parameters	86
3.2 Traffic Considered for simulation	86
3.3 Traffic generated for simulation scheme 1	87
3.4 Traffic generated for simulation scheme 4	88
3.5 Number of Connections Admitted	89
3.6 Number of connections admitted for varying number of connections	99
3.7 Traffic generated for Scenario 3	104
4.1 Classification of Scheduling Services	116
4.2 Simulation Parameters	119
5.1 IPTV associated services and Mobile WiMAX scheduling classes	134
5.2 Simulation Parameters	143
6.1 Simulation parameters	160
