Acknowledgement

First I thank Almighty God for the blessings He has showered on me to complete this thesis most successfully.

Words fail to express my profound sense of gratitude to my esteemed guide Prof. Dr. V.S. Jayakumar, Head of the Department of Physics, Mar Ivanios College, Thiruvanathapuram, under whose guidance and direct supervision, this work has been carried out and completed. I am indebted to him for his inspiring guidance, academic caliber, keen interest and constant encouragement, and above all, his love and concern that helped me to accomplish in my research career.

It is also a real pleasure for me to thank Dr. I. Hubert Joe, Department of Physics, Mar Ivanios College, Thiruvanathapuram, for his outstanding ability to suggest, direct and organize future research work.

My Special thanks to Dr. K.S. Viswanathan, Chemistry group, IGCAR, Kalpakam, India for his help and initial assistance in using Gaussian software.

I thank Mr. D. Sajan, Research Scholar, Department of Physics, Mar Ivanios College, Thiruvanathapuram, who has always been generous in sharing his time in stimulating scientific discussions, and the experimental support that has helped me a lot during my research work.

I am grateful to Rev. Fr. M.G. Mathew Manakarakavil, Principal, Mar Ivanios College, Thiruvanathapuram for his assistance in completing this work. I also express my sincere gratitude with profound sense of indebtedness to Rev. Fr. Daniel Kuzhith dadathil, former Principal, Mar Ivanios College Thiruvananthapuram.

I am also obliged to the Management of St. Stephen's college, Pathanapuram for permitting me to carry out my research work. I am extremely grateful to Rev. Fr. K.V. Paul, Principal, St. Stephen's college, Pathanapuram for the constant encouragement and support for this research work.

I gratefully acknowledge the sincere advice and encouragement in every stage of my research work provided by Mr. P.K. Thomas Vidyan, former Head of the Department of Physics, St. Stephen's college, Pathanapuram throughout my research career. I would like to thank Mrs. Soosy Kurian, Head of the Department of Physics, St. Stephen's college, Pathanapuram for her kind support and encouragement. I further wish to thank my colleagues in the Department of
Physics, other teaching and non-teaching staff of St. Stephen’s college, Pathanapuram for their kind co-operation during various stages of my research programme.

I would like to thank my fellow research scholars viz. Dr. J. Binoy, Mr. T. Vijayakumar, Dr. C. James, Mr. C. Ravikumar, Research Scholar, for their valuable help and support during my research.

I take this opportunity to express my sincere thanks to Mr. Alexander Jacob and Mr. P.G. Thomaskutty of Mar Ivanios College for their assistance in running the software, providing the infrastructure facilities of the computer lab during day and night.

I am grateful to Dr. V. George, TBGRI, Palode, Thiruvananthapuram, Kerala, India and Dr. Joseph Mathew, Department of Chemistry, Mar Ivanios College, Thiruvananthapuram, Kerala, India for providing me with some of the samples used in this research work. Special thanks to Prof. Dr. O. Faurskov Nielsen, Department of Chemistry, University of Copenhagen, 5-Universitetsparken, DK-2100, Copenhagen, Denmark, Prof. Dr. Jean. Aubard, ITODYS, Université Paris VII, 1 rue Guy de la Brosse, 75005 Paris, France for their kind assistance in spectra recording and for fruitful discussions.

I would like to thank Dr. V. B. Kartha, Dr. C. Murali Krishna and Miss. N. B. Prathima, Center for Laser Spectroscopy, Manipal Academy of Higher Education, Manipal, India for their kind assistance in recording the Raman and SERS spectra of some of the samples.

I sincerely thank the University Grants Commission, New Delhi for awarding Teacher Fellowship under Faculty Improvement programme and the Government of Kerala for sanctioning my deputation.

The kindness and hospitality shown by my guide Dr. V. S. Jayakumar and his family members are beyond the words to be expressed. Last, but not least, I would like to acknowledge the help and the support of, my loving wife Rani and our two lovely children Deepu and Diya for their valuable prayers and support.

15th May 2008

Jose P. Abraham
