

List of tables

Table4.1: Descriptive statistics of accruals.....	106
Table4.2: Accruals Mean for each year during 1996 – 2009.....	106
Table4.3: Descriptive statistics of CF_{t-1} , CF_t , CF_{t+1} , ΔR , PPE.....	108
Table4.4: Independent variables Mean for each year during 1996 – 2009.....	109
Table4.5: Descriptive statistics of Investment.....	111
Table4.6: Investment Mean for each year during 1997-2009.....	112
Table4.7: Descriptive statistics of $Sale\ Growth_{t-1}$, ROA_{t-1} , MTB_t , OP_t	113
Table4.8: Independent variables Mean for each year during 1997-2009.....	114
Table4.9: Descriptive statistics of financial reporting quality residuals.....	116
Table4.10: Descriptive statistics of financial reporting quality residuals for each year during 1996-2008.....	116
Table4.11: Descriptive statistics of residuals of investment efficiency model for 13 years.....	118
Table4.12: Descriptive statistics of residuals of investment efficiency model for each year during 1997-2008.....	118
Table 4.13: Descriptive statistics of underinvestment for 13 years.....	119
Table 4.14: Descriptive statistics of under investment for each year during 1997-2009.....	120
Table 4.15: Descriptive statistics of overinvestment for 13 years.....	121
Table 4.16: Descriptive statistics of over investment for each year during 1997-2009.....	121
Table 5.1: Stepwise table (Variables Entered/Removed) of financial reporting quality regression.....	126
Table 5.2: Model summary of financial reporting quality regression.....	127
Table 5.3: ANOVA table of financial reporting quality regression.....	129
Table 5.4: Coefficients table of financial reporting quality model.....	131
Table 5.5: Statistical information summary of Richardson’s model.....	139
Table 5.6: Stepwise table of investment efficiency regression.....	140
Table 5.7: Model summary of investment efficiency regression.....	141
Table 5.8: ANOVA table of investment efficiency regression.....	143
Table 5.9: Coefficients table of Investment efficiency model.....	144
Table 5.10: Relationship between under investment and FRQ, Cash Flow, ROA, Sales Growth, Log TA variables.....	151
Table5.11: ANOVA table showing relationship between under investment and FRQ, Cash Flow, ROA, Sales Growth, Log TA variables.....	151
Table 5.12: Coefficients table showing relationship between under	

investment and FRQ, Cash Flow, ROA, Sales Growth, Log TA variables.....	152
Table 5.13: Relationship between over investment and FRQ, Cash flow, OP, MTB, Log TA variables.....	154
Table 5.14: ANOVA table showing relationship between over investment and FRQ, Cash flow, OP, MTB, Log TA variables.....	154
Table 5.15: Coefficients table showing relationship between over investment and FRQ, Cash flow, OP, MTB, Log TA variables....	155
Table 5.16: Relationship between financial reporting quality and Firm Size, Δ Revenue variables.....	157
Table5.17: ANOVA table showing relationship between financial reporting quality and Firm Size, Δ Revenue variables.....	157
Table 5.18: Coefficients table showing relationship between financial reporting quality and Firm Size, Δ Revenue variables.....	158
Table 5.19: Relationship between financial reporting quality and Sale Volatility, Log TA, Δ Revenue, PPE variables.....	160
Table5.20: ANOVA table showing relationship between financial reporting quality and Sale Volatility, Log TA, Δ Revenue, PPE variables.....	161
Table 5.21: Coefficients table showing relationship between financial reporting quality and Sale Volatility, Log TA, Δ Revenue, PPE variables.....	161
Table5.22: Relationship between financial reporting quality and Financial Leverage, Log TA, Cash Flow, PPE, Δ Revenue variables.....	163
Table 5.23: ANOVA table showing relationship between financial reporting quality and Financial Leverage, Log TA, Cash Flow, PPE, Δ Revenue variables.....	164
Table5.24: Coefficients table relationship between financial reporting quality and Financial Leverage, Log TA, Cash Flow, PPE, Δ Revenue variables.....	164
Table5.25: Relationship between financial reporting quality and Book to Market value, Log TA, Δ Revenue variables.....	166
Table5.26: ANOVA table relationship between financial reporting quality and Book to Market value, Log TA, Δ Revenue variables.....	167
Table5.27: Coefficients table showing relationship between financial reporting quality and Book to Market value, Log TA, Δ Revenue variables.....	167
Table 5.28: Correlations table showing relationship between ownership diversity and financial reporting quality.....	169
Table 5.29: Statistical tests and information table of relationship between	

ownership diversity and financial reporting quality	169
Table 5.30: Correlations table of relationship between ownership diversity and investment inefficiency.....	171
Table 5.31: Statistical tests and information table of relationship between ownership diversity and investment inefficiency	171
Table 8.1_ Correlations table of financial reporting quality regression.....	212
Table 8.2_ collinearity diagnostics table of financial reporting quality regression.....	213
Table 8.3_ correlations table of investment efficiency regression.....	214
Table 8.4_ collinearity diagnostics table of investment efficiency regression.....	215
Table 8.5: Correlations between financial reporting quality and under investment and the other independent variables	222
8.6: Correlations between financial reporting quality and over investment and other variables.....	224
8.7: Correlations between financial reporting quality and size of firm and the other independent variables.....	226
8.8: Correlations between financial reporting quality and sales volatility and the others variables.....	226
8.9: Correlations between financial reporting quality and financial leverage an the other variables.....	227
8.10: Correlations between financial reporting quality and book to market value and the other variables.....	228
