LIST OF TABLES

Chapter 4
RESULTS

Table 4.1: Demographic, anthropometric measures and baseline characteristic of Yoga, Music and Control group.

Table 4.2: General classes of Oral hypoglycaemic agents (OHA) and other drugs taken by subjects in all groups during study

Table 4.3: Mean changes with standard deviation in Yoga group for variables tested at baseline, 3 moths and 6 months of intervention.

Table 4.4: Mean changes with standard deviation in Music group for variables tested at baseline, 3 moths and 6 months of intervention.

Table 4.5: Mean changes with standard deviation in Control group for variables tested at baseline, 3 moths and 6 months of intervention.

Table 4.6: Comparison of changes across all groups in terms of mean difference (M.D.) with standard error (S.E.). F value= Interaction effect computation of ANOVA across groups

Graph 1: Changes in HbA1c in all groups across 6 months
Plot 1: Interaction plot showing changes in HbA1c among all groups over 6 Months

Graph 2: Changes in FBS among all groups over 6 Months
Plot 2: Interaction plot showing changes in FBS among all groups over 6 Months

Graph 3: Changes in PPBS among all groups over 6 Months
Plot 3: Interaction plot showing changes in PPBS among all groups over 6 Months

Graph 4: Changes in Total Cholesterol (TC) among all groups over 6 Months
Plot 4: Interaction plot showing changes in Total Cholesterol (TC) among all groups over 6 Months

Graph 5: Changes in Triglycerides (TGs) among all groups over 6 Months
Plot 5: Interaction plot showing changes in Triglycerides (TGs) among all groups over 6 Months
Graph 6: Changes in LDL among all groups over 6 Months
Plot 6: Interaction plot showing changes in LDL among all groups over 6 Months

Graph 7: Changes in HDL among all groups over 6 Months
Plot 7: Interaction plot showing changes in HDL among all groups over 6 Months

Graph 8: Changes in SSAI among all groups over 6 Months
Plot 8: Interaction plot showing changes in SSAI among all groups over 6 Months

Graph 9: Changes in STAI among all groups over 6 Months
Plot 9: Interaction plot showing changes in STAI among all groups over 6 Months

Graph 10: Changes in Total Anxiety among all groups over 6 Months
Plot 10: Interaction plot showing changes in Total Anxiety among all groups over 6 Months

Graph 11: Changes in BDI among all groups over 6 Months
Plot 11: Interaction plot showing changes in BDI among all groups over 6 Months

Graph 12: Changes in Exercise Self Efficacy among all groups over 6 Months
Plot 12: Interaction plot showing changes in Exercise Self Efficacy among all groups over 6 Months

Graph 13: Changes in D-QOL among all groups over 6 Months
Plot 13: Interaction plot showing changes in D-QOL among all groups over 6 Months

Graph 14: Changes in Weight among all groups over 6 Months
Plot 14: Interaction plot showing changes in Weight among all groups over 6 Months

Graph 15: Changes in BMI among all groups over 6 Months
Plot 15: Interaction plot showing changes in BMI among all groups over 6 Months

Graph 16: Changes in SBP among all groups over 6 Months
Plot 16: Interaction plot showing changes in SBP among all groups over 6 Months

Graph 17: Changes in DBP among all groups over 6 Months
Plot 17: Interaction plot showing changes in DBP among all groups over 6 Months
