ACKNOWLEDGEMENTS

I dedicate this thesis work to my dearest father Mr. Nimbaji Patil who is battling with malignant lung cancer and who is always the ray of sun to brighten and bless our lives by teaching the fact that one should not surrender in life till the last breath.

I owe my deepest gratitude for the support, encouragement and valuable guidance received from my guide Dr. Mrs. Sunita M. Mahajan. I could not have had a better or more knowledgeable guide in my life who always took time for me, however in her busy schedule she might have been reading chapters thoroughly for improving the write-ups. She both had the calmness of mind to give me lots of freedom in research, and the right judgments to guide me. The credit for successful completion of this thesis work truly goes to her.

I am grateful to Dr. S. Y. Mhaiskar, Dean, MPSTME and Dr. D. J. Shah, Ex-Dean MPSTME for granting me permission, providing me with all the facilities and supporting me in carrying out my thesis work.

My sincere thanks to Dr. Vijay Raisinghani, Associate Dean, MPSTME and Dr. Ketan Shah for their valuable inputs, helpful reviews and suggestions to carry on with my thesis work.

I am very much thankful to Mrs. Alka Shukla, Deputy Registrar, examinations and Mr. Aashish Apte, Controller of examinations, NMIMS for their anytime valuable help, support and encouragement.

I acknowledge the support of all the members of FIRE, India (Forum for Information Retrieval and Evaluations) for solving most of my queries through FIRE groups and workshops. I acknowledge the support of corporate professionals Mr. Deudatta Patil (Team leader, Tech Mahindra, Pune) and Mr. Yatin Joshi (Senior Practice Manager, TCS, Mumbai) for corpora selection and valuable inputs based on their experience on Databases and Information Retrieval which helped in optimization of efforts and time for evaluating the system.
I acknowledge the online IEEE Explore for collecting the published research papers as corpus data from their various conferences for reference.

I also acknowledge the knowledge, time and the moral support given by my friends **Dr. Suryakant B. Patil**, Head, Dept of Comp Engineering, RIT, Kolhapur University, **Dr. Mrs. Preeti S. Patil**, Dean, Head, Dept of Comp Engineering, KIT, Kolhapur University and **Prof. Manish Patil**, Assistant Prof, SPIT, Mumbai University for the evaluation of the results as human experts.

This thesis would not have been possible without the support of my husband **Mr. Ravindra Patil** who always stood by me, forever ready with any kind of help and encouragement. My husband and friend’s faith in me supported me in completing this thesis work. My sincere gratitude towards **my loving and caring mother, brothers, sisters, and in-laws**, without whom this thesis work would not have been completed.

I also dedicate this thesis work to my loving daughters **Baby Samruddhi & Baby Unnati** whose childish unconditional love and care took me to the completion of this thesis work.

I thank **one and all**, who have directly or indirectly supported me in completing my thesis work.

---
**Sunita Ravindra Patil**
